1. INTRODUCTION

The MyChangan smartphone Application is an integrated digital companion designed to enhance your ownership experience beyond the vehicle itself.

Provided as an additional feature with your Changan vehicle, the App brings together intelligent connectivity, remote functionality, and essential vehicle information—all in one intuitive platform.

Through the MyChangan App, you can securely connect to your vehicle, monitor key vehicle data, manage settings, and access a wide range of smart features designed to support everyday driving, journey planning, and vehicle care.

From real-time vehicle status and battery management to remote controls, vehicle software updates, and digital documentation, the App is built to give you greater visibility, convenience, and control.

This booklet will guide you through each feature step by step, helping you get the most from the MyChangan app and your vehicle's connected technology.

Whether you're setting up your account for the first time or exploring advanced functions, you'll find everything you need to stay informed, connected, and confidently in control.

2. APPLICATION DOWNLOAD

Here is how the 'MyChangan' App will appear in the Apple App Store or Google Play Store

1

Search '**MyChangan**' in the Apple App Store or the Google Play Store. Alternatively, scan the below QR codes

2

Download the App

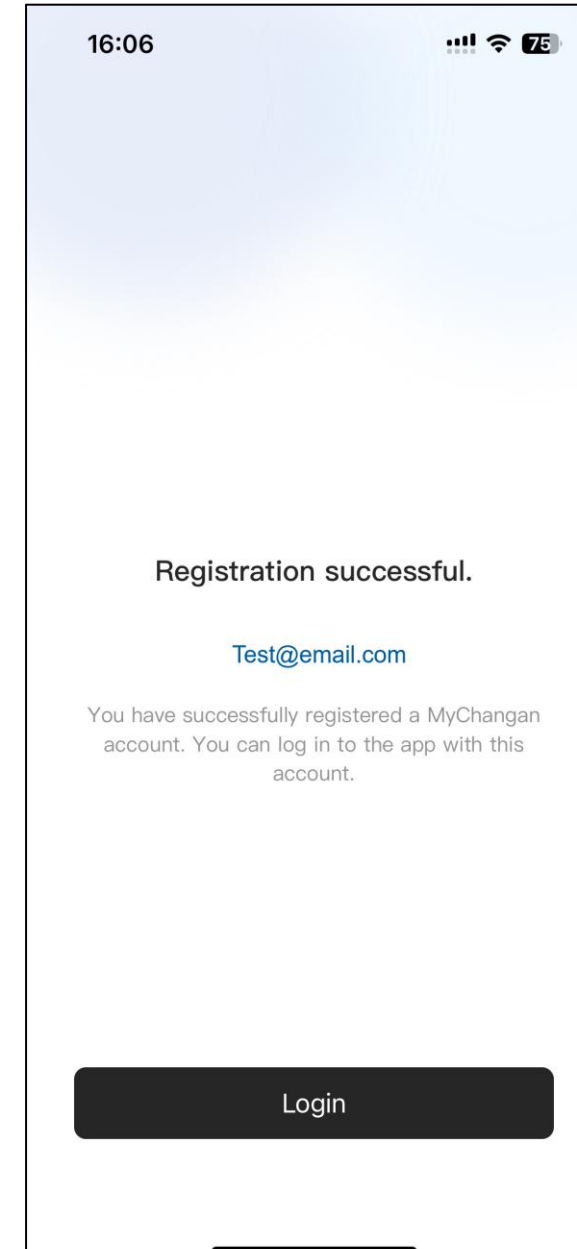

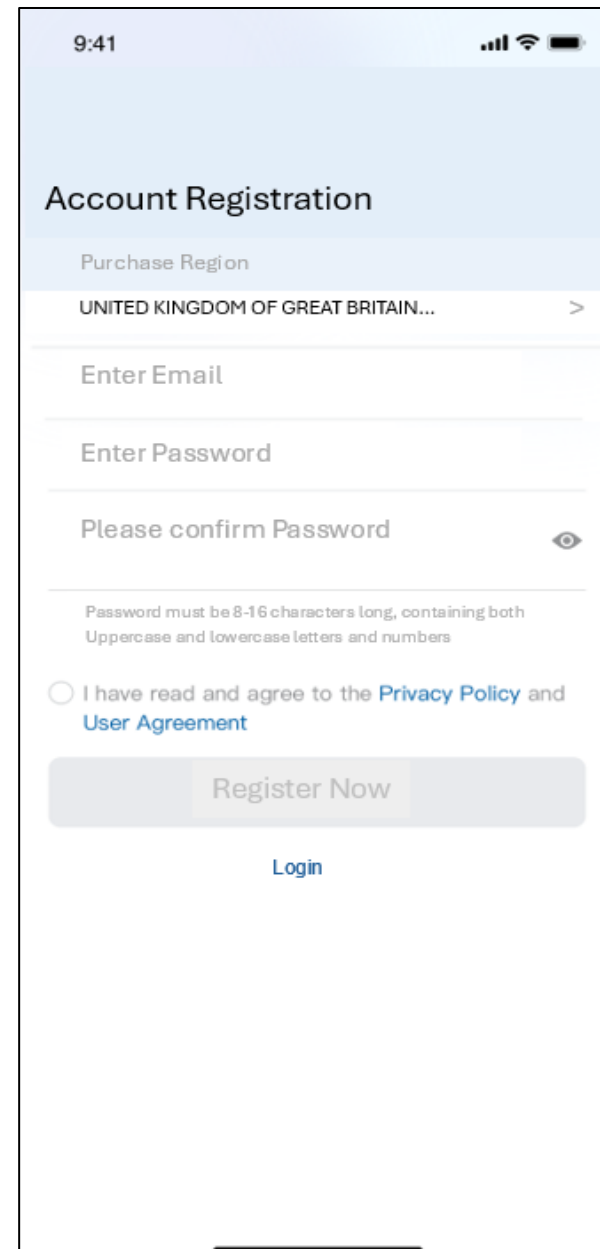

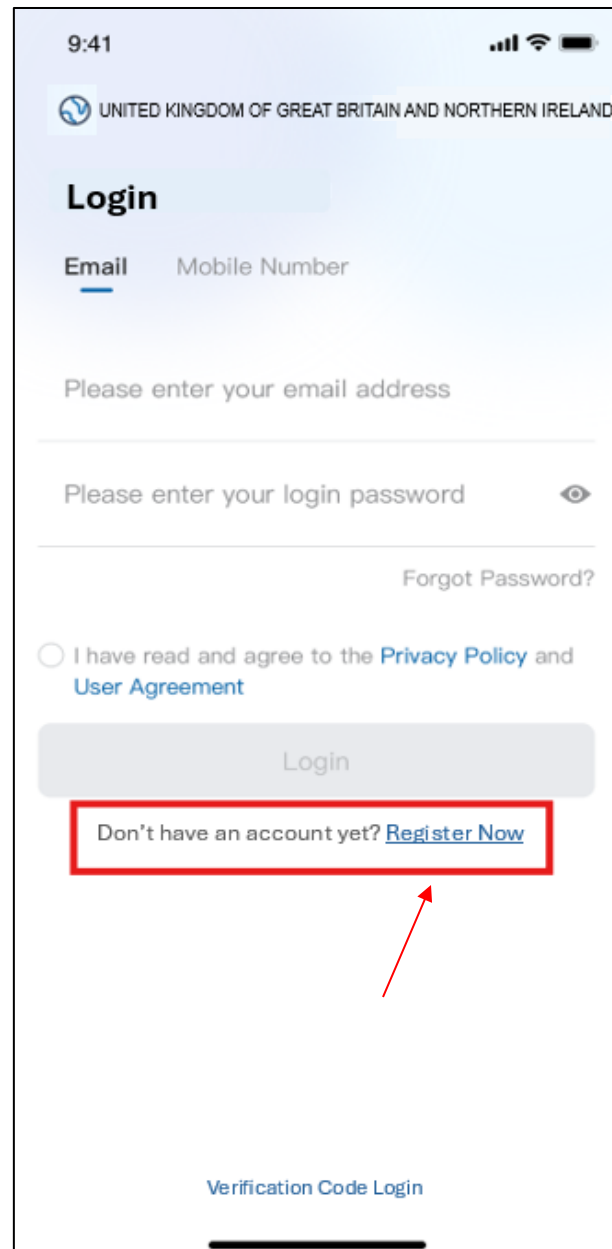

Apple App store-
IOS

Google Play Store-
Android

3. ACCOUNT CREATION

1 Click **Register Now**

2 Select the correct **purchase region** for the vehicle. Then input your **Email Address**. This must be the same email address that your Dealership registered your vehicle sale with. Create a password and accept the **User Agreement**. Then click **Register Now**

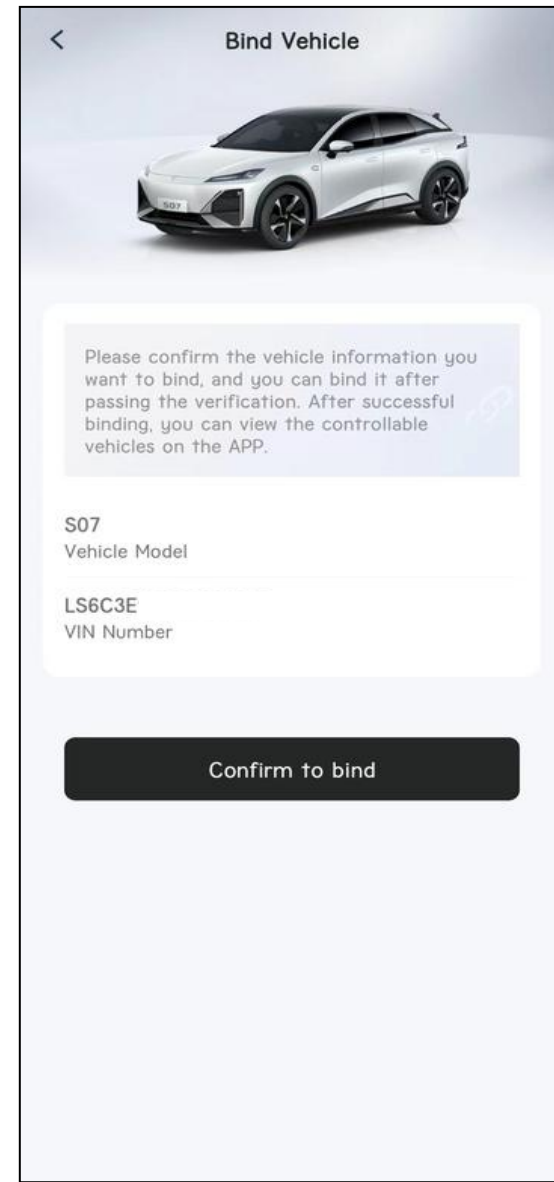

3 The App will then show **Registration Success** and will confirm your account name. Then, click **Login**

4 After clicking **Login**, your account will login automatically, Then click **Bind Vehicle** to begin the vehicle binding process

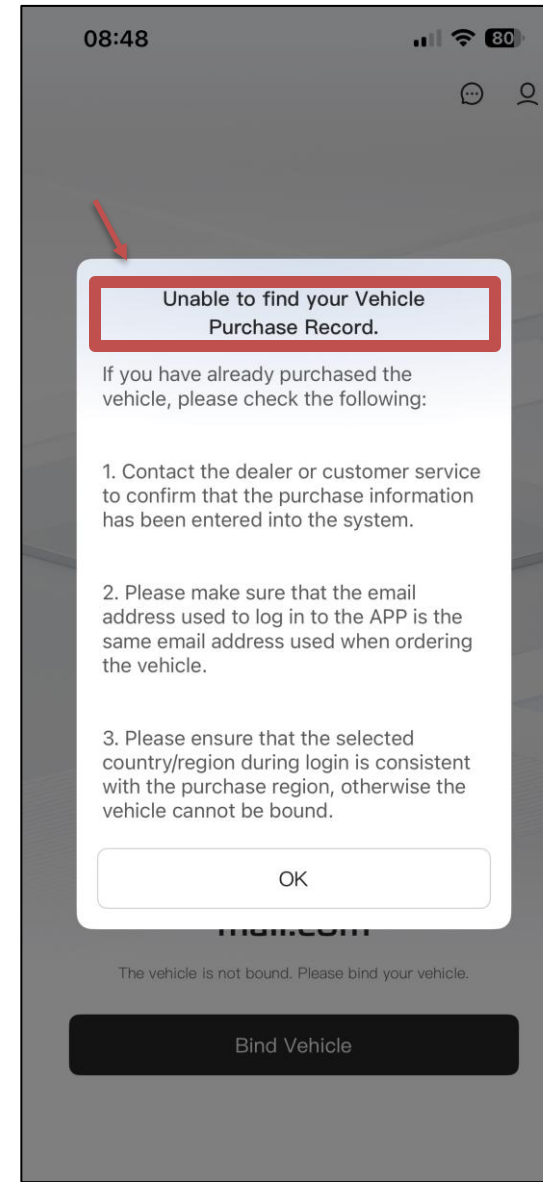

4. VEHICLE BINDING

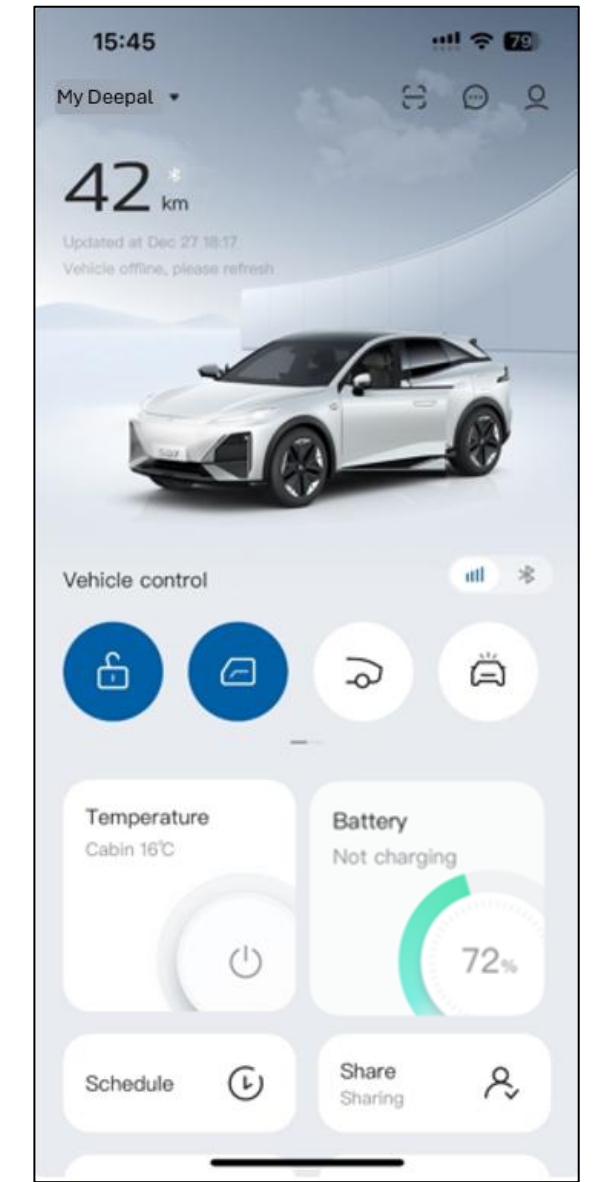

1 Login then click **Bind Vehicle**

2 Check vehicle information then click **Confirm to bind**

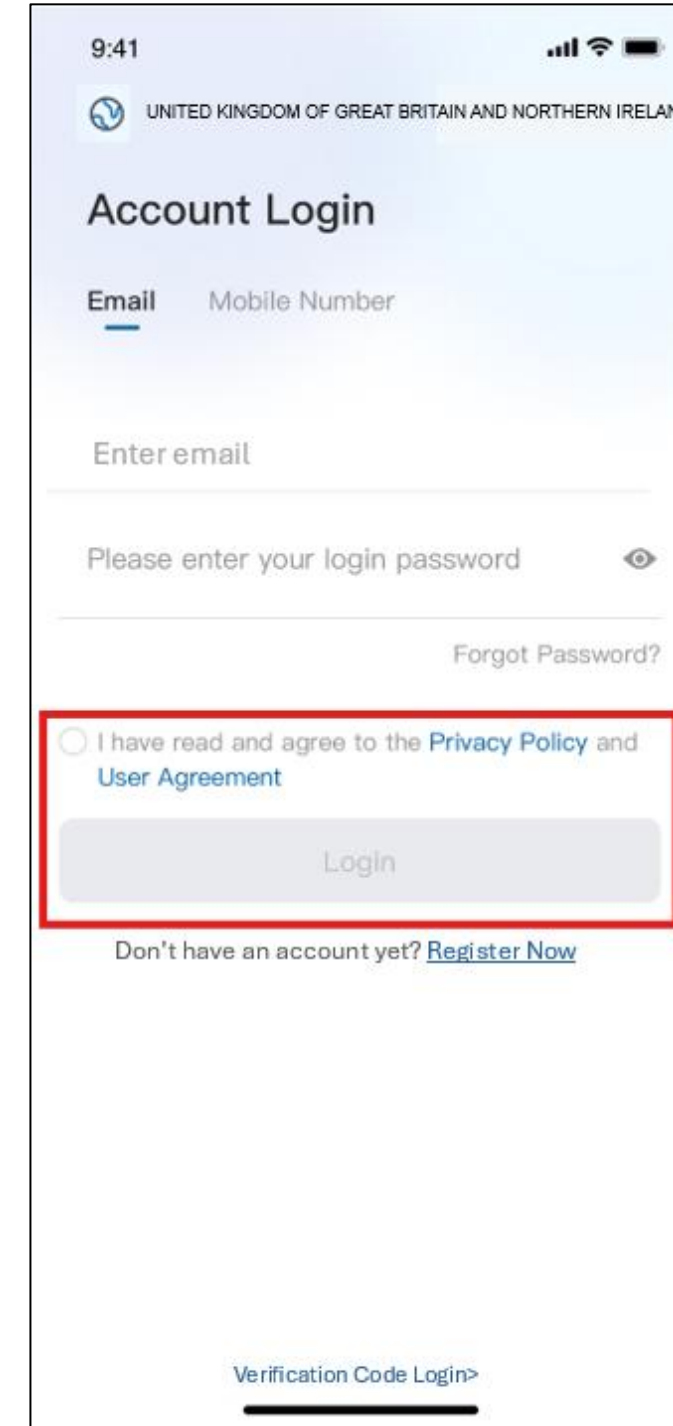

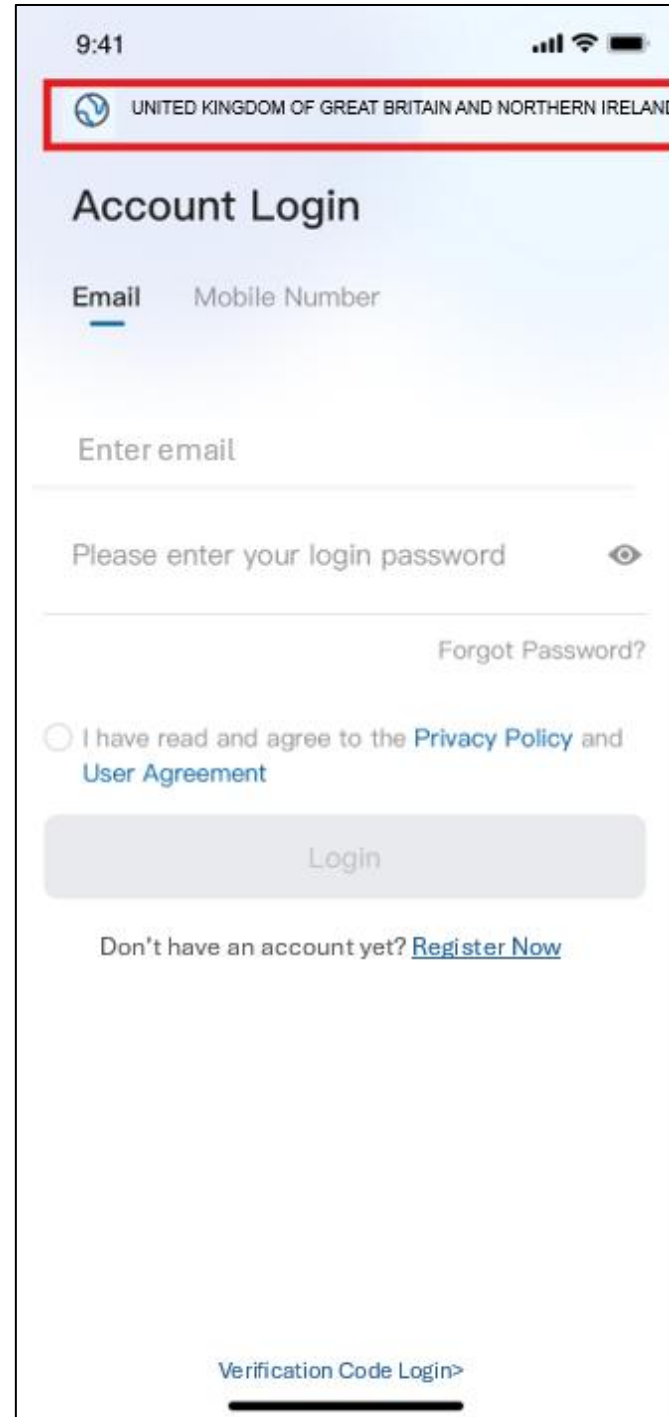

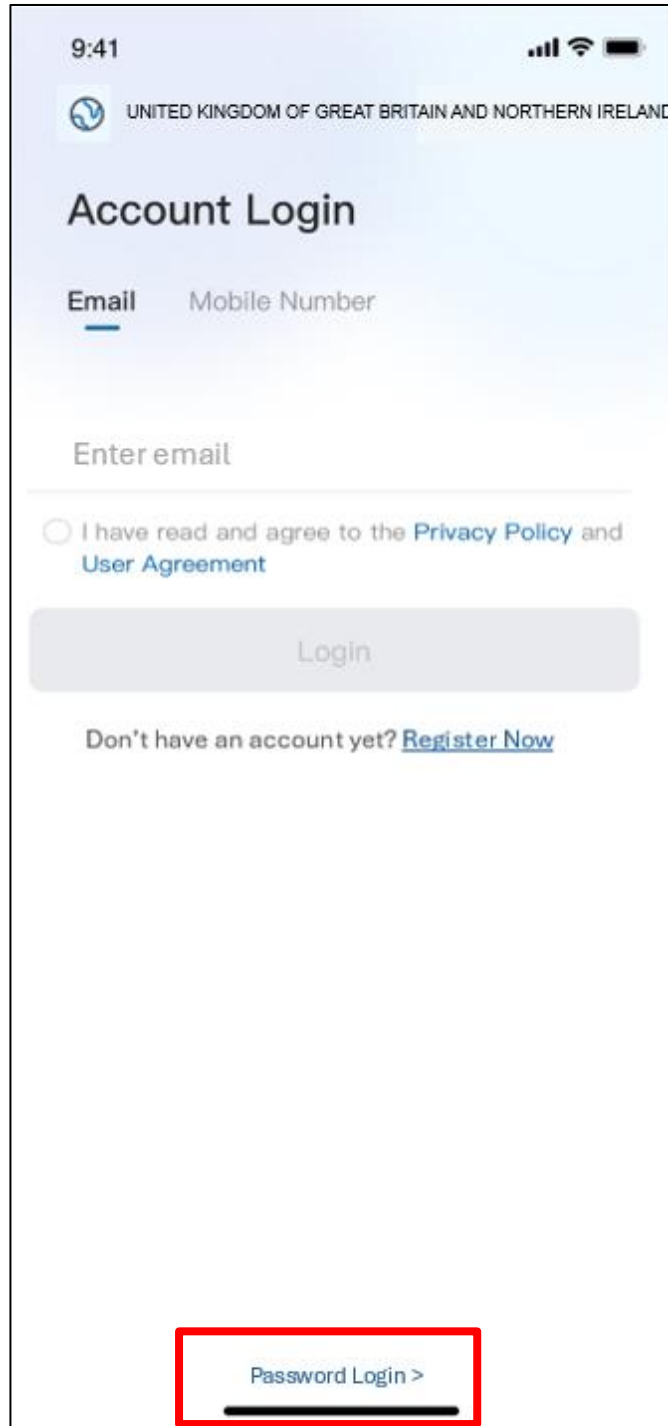

3 *If the vehicle purchase Information cannot be found, please contact your selling Changan dealership who must pre-bind your vehicle on the appropriate system with your details before you are able to bind

4 After the vehicle bind is successful, it will then go to the application homepage

5. ACCOUNT LOGIN

LOGIN WITH YOUR EMAIL ADDRESS AND PASSWORD

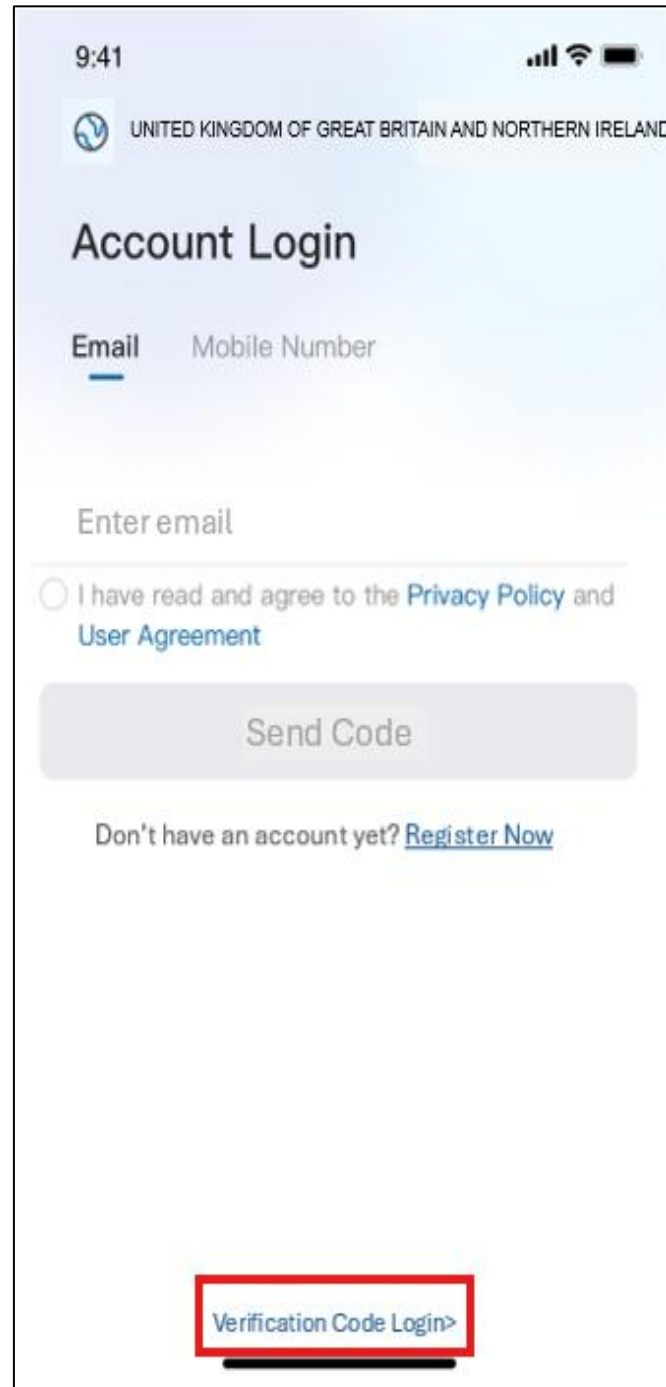

1 Click **Password Login**

2 Select the correct **Country/Region**, input the Email address and password for your account

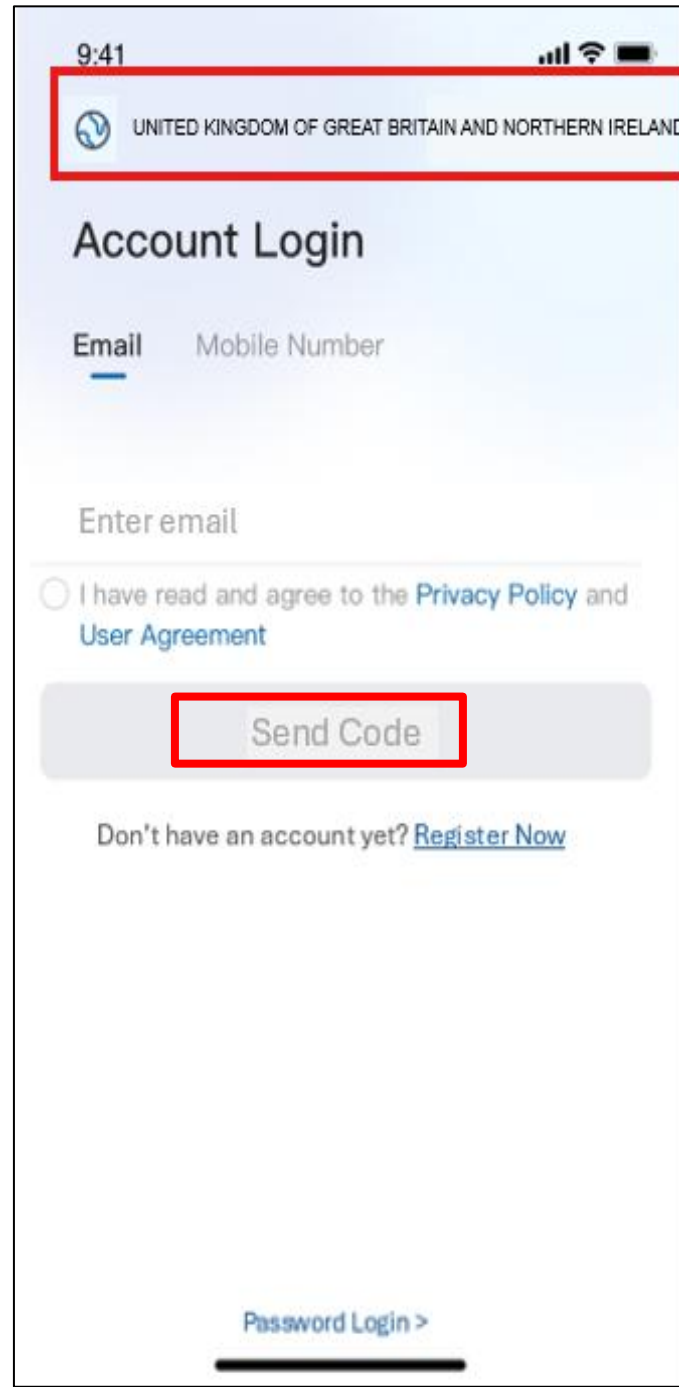

3 Select to agree to the **Privacy Policy and User Agreement**, then **Login**

5. ACCOUNT LOGIN

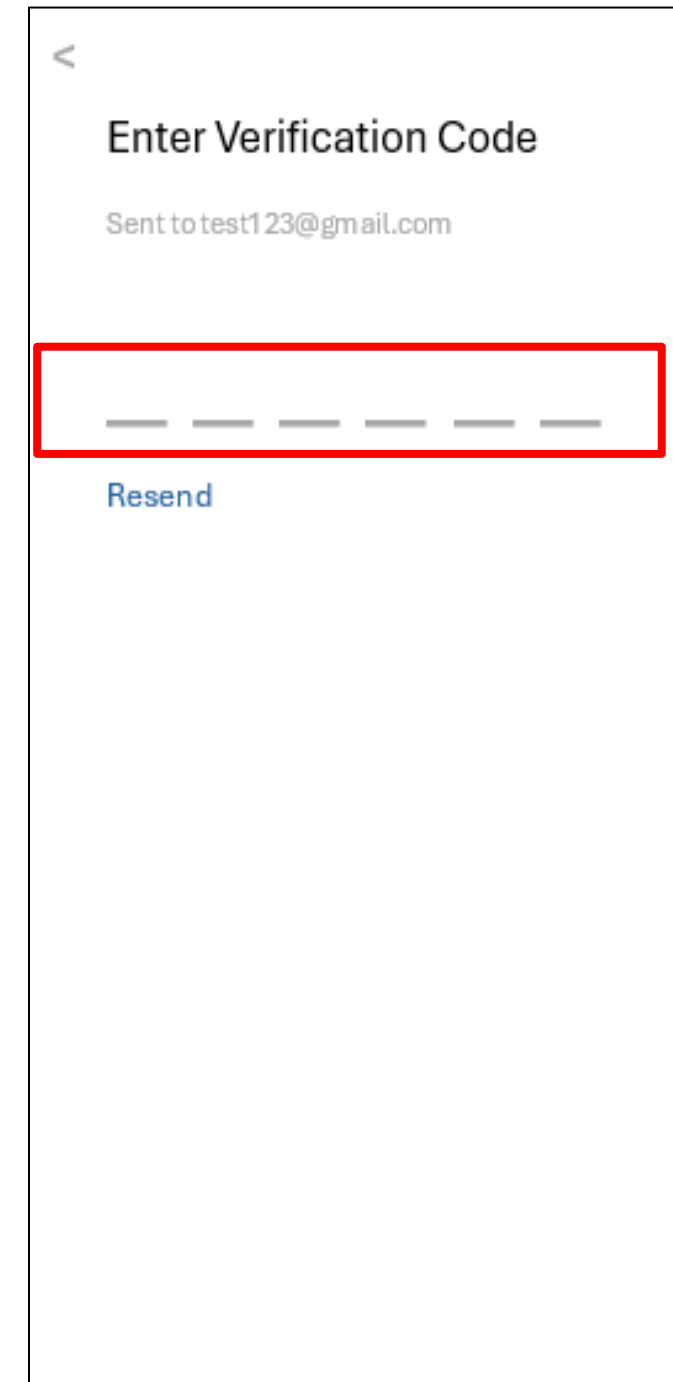

LOGIN WITH YOUR EMAIL ADDRESS AND A ONE TIME PASSCODE

1 Click **Verification Code Login**

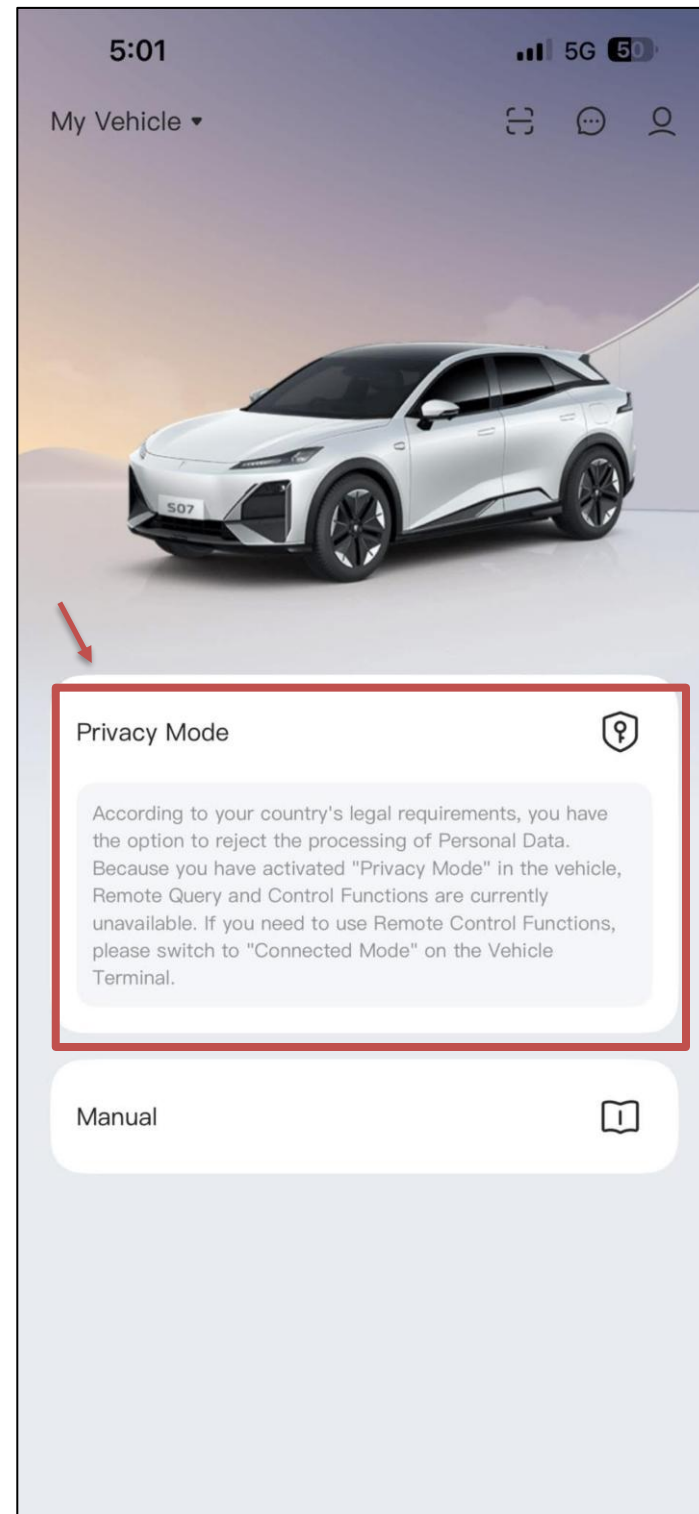

2 Select the correct **Country/Region**, input your account email then accept the **Privacy Policy** and **User Agreement** and click **Send Code**

3 Input the **One Time Passcode** received to your email address, it will then login automatically

6. PRIVACY MODE & CONNECTED MODE

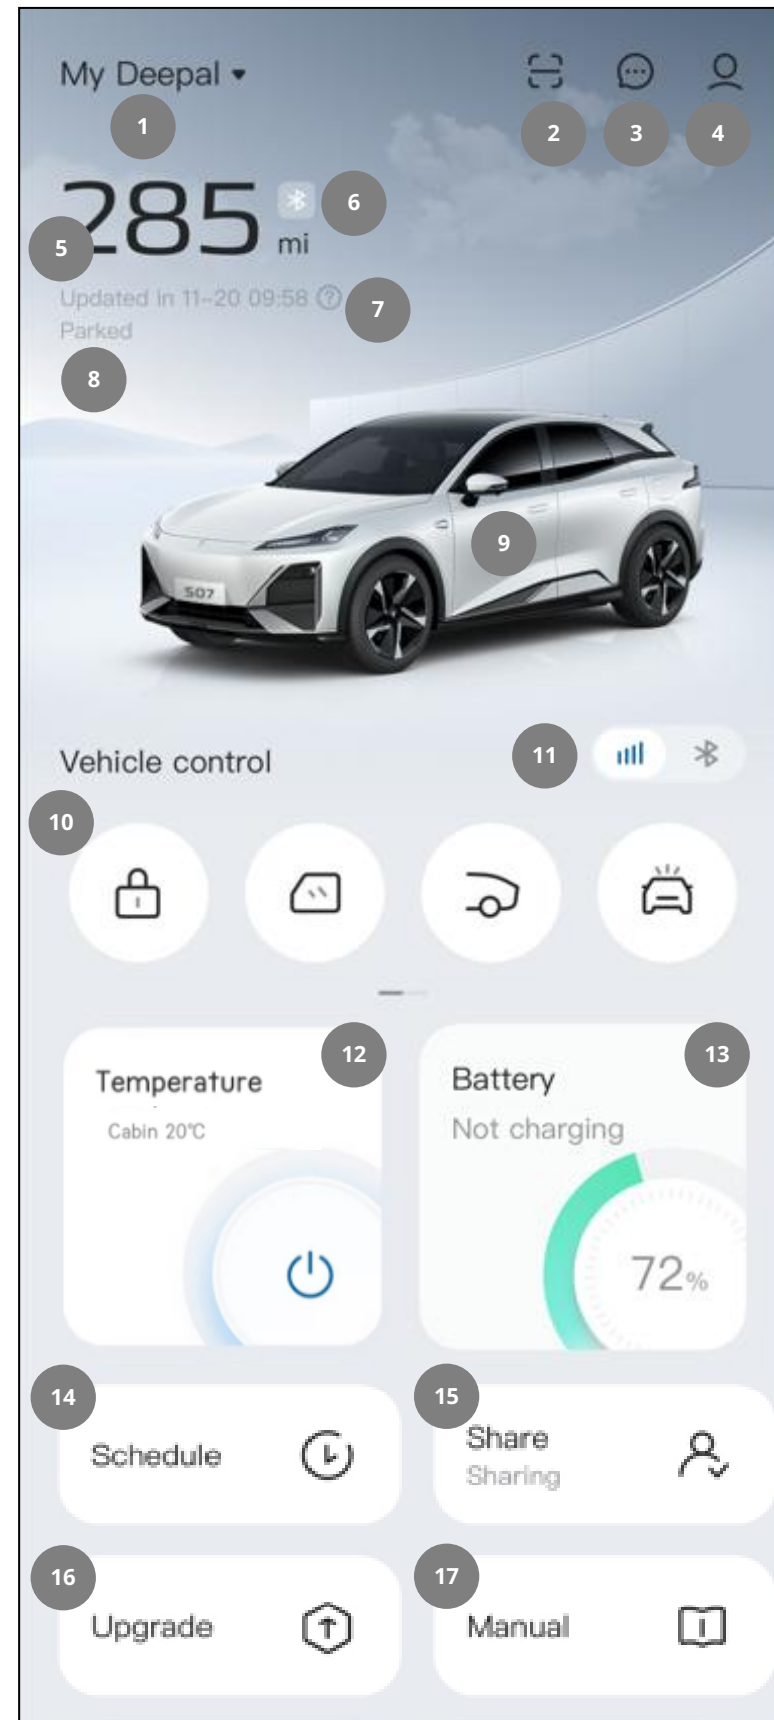

Your vehicle must be in **connected mode** to access the homepage of your App. If your vehicle is in **privacy mode**, you will see the **privacy mode** message displayed instead of the full homepage. To place your vehicle in '**connected mode**' follow the below steps:

- 1 Go to your vehicle's infotainment screen
- 2 Click **Vehicle Settings** or **System** (dependent on your vehicle model)
- 3 Click **Privacy** or **Connected Mode** (dependent on your vehicle model)
- 4 Change the vehicle from **Privacy Mode** to **Connected Mode**
- 5 Approve the **Terms & conditions** and scan the QR code presented on the infotainment screen using the **QR code scanner** in your MyChangan App
- 6 Confirm the log in on your App and your vehicle will then successfully enter **connected mode**

Your vehicle will usually require a 4g network connection for the QR code to appear.

Your dealership must have also pre-bound you and your vehicle details on the appropriate system for the QR code to appear.

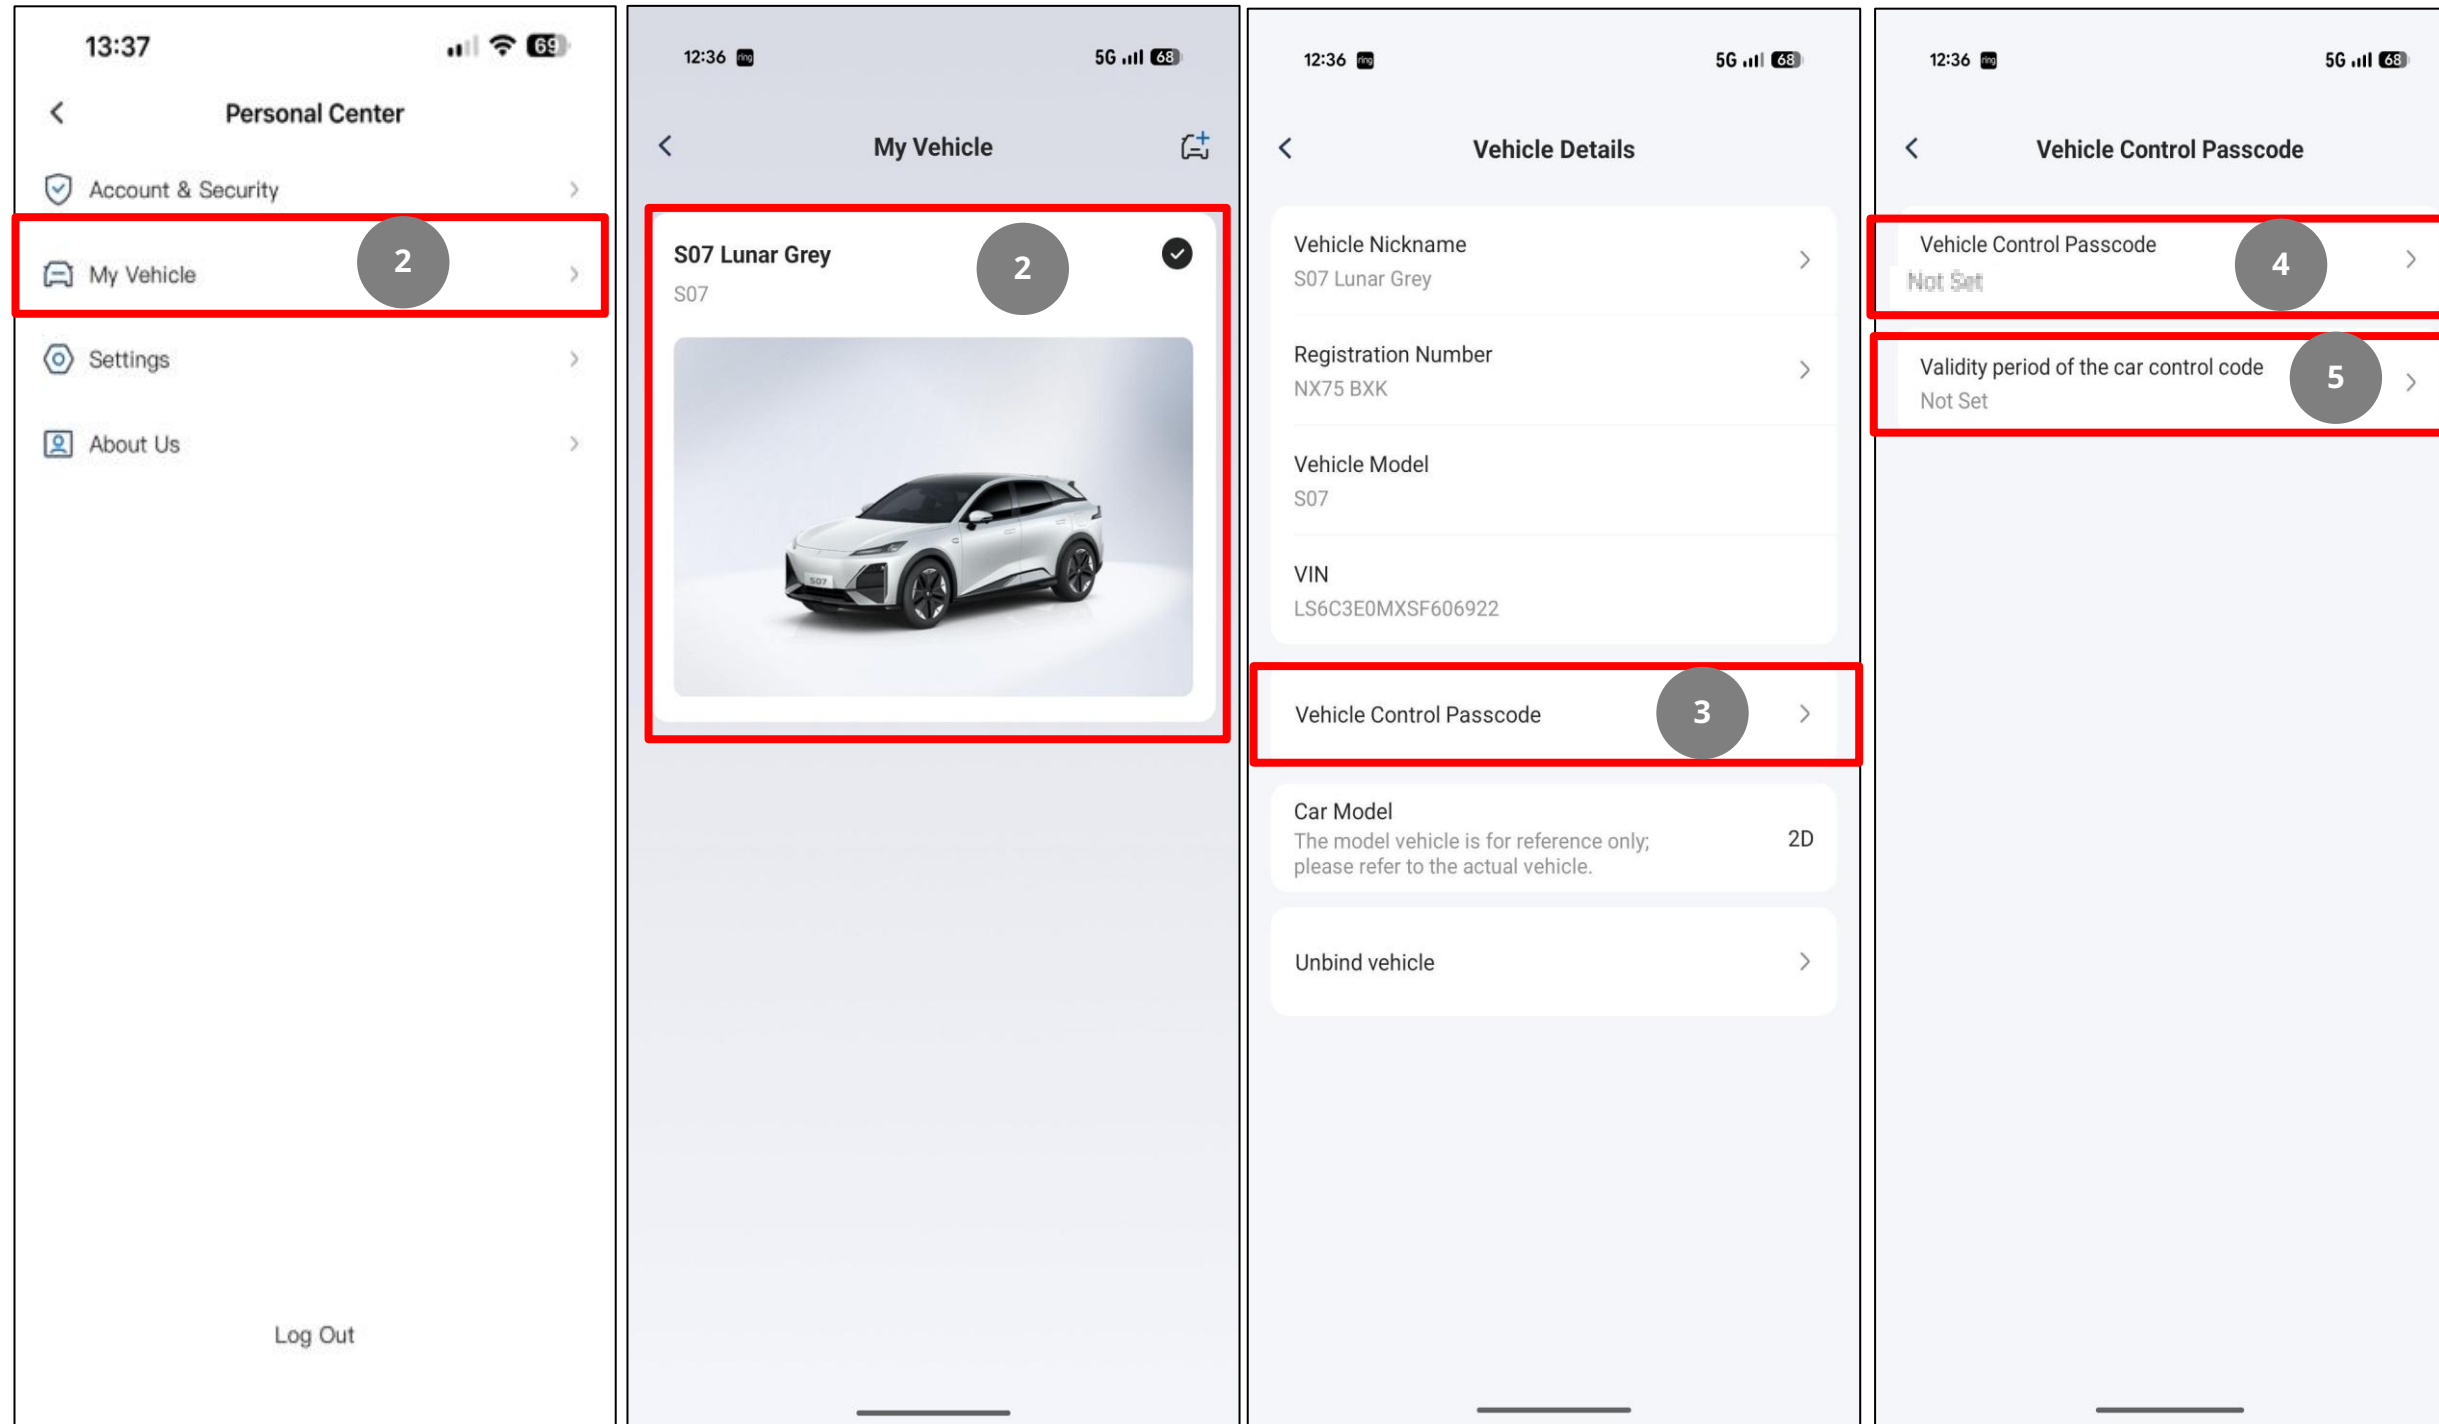

6. HOMEPAGE OVERVIEW

- 1 Shows your current vehicle name and allows you to click into vehicle management
- 2 Opens your camera to login into your vehicle's infotainment screen
- 3 Message center
- 4 Personal center
- 5 Remaining range
- 6 Bluetooth connection status for Bluetooth key
- 7 Latest update time
- 8 Vehicle status: Parked, In-Use, Charging
- 9 Shows door and boot status, click to check the vehicle's status update
- 10 Vehicle control
- 11 Current connection type, Network or Bluetooth
- 12 Air conditioning control with interior temperature and heated seating controls (if applicable)
- 13 Battery management and battery remaining percentage
- 14 Schedule a trip
- 15 Vehicle sharing
- 16 Schedule OTA upgrade
- 17 User manual

7. VEHICLE CONTROL PASSCODE

HOW TO CREATE A VEHICLE CONTROL PASSCODE

Setup your own personal 6-digit vehicle Control Passcode to control your vehicle. This Passcode will be required when you are controlling the vehicle using the remote control function. When controlling the vehicle through the Bluetooth pathway, the passcode will not be required.

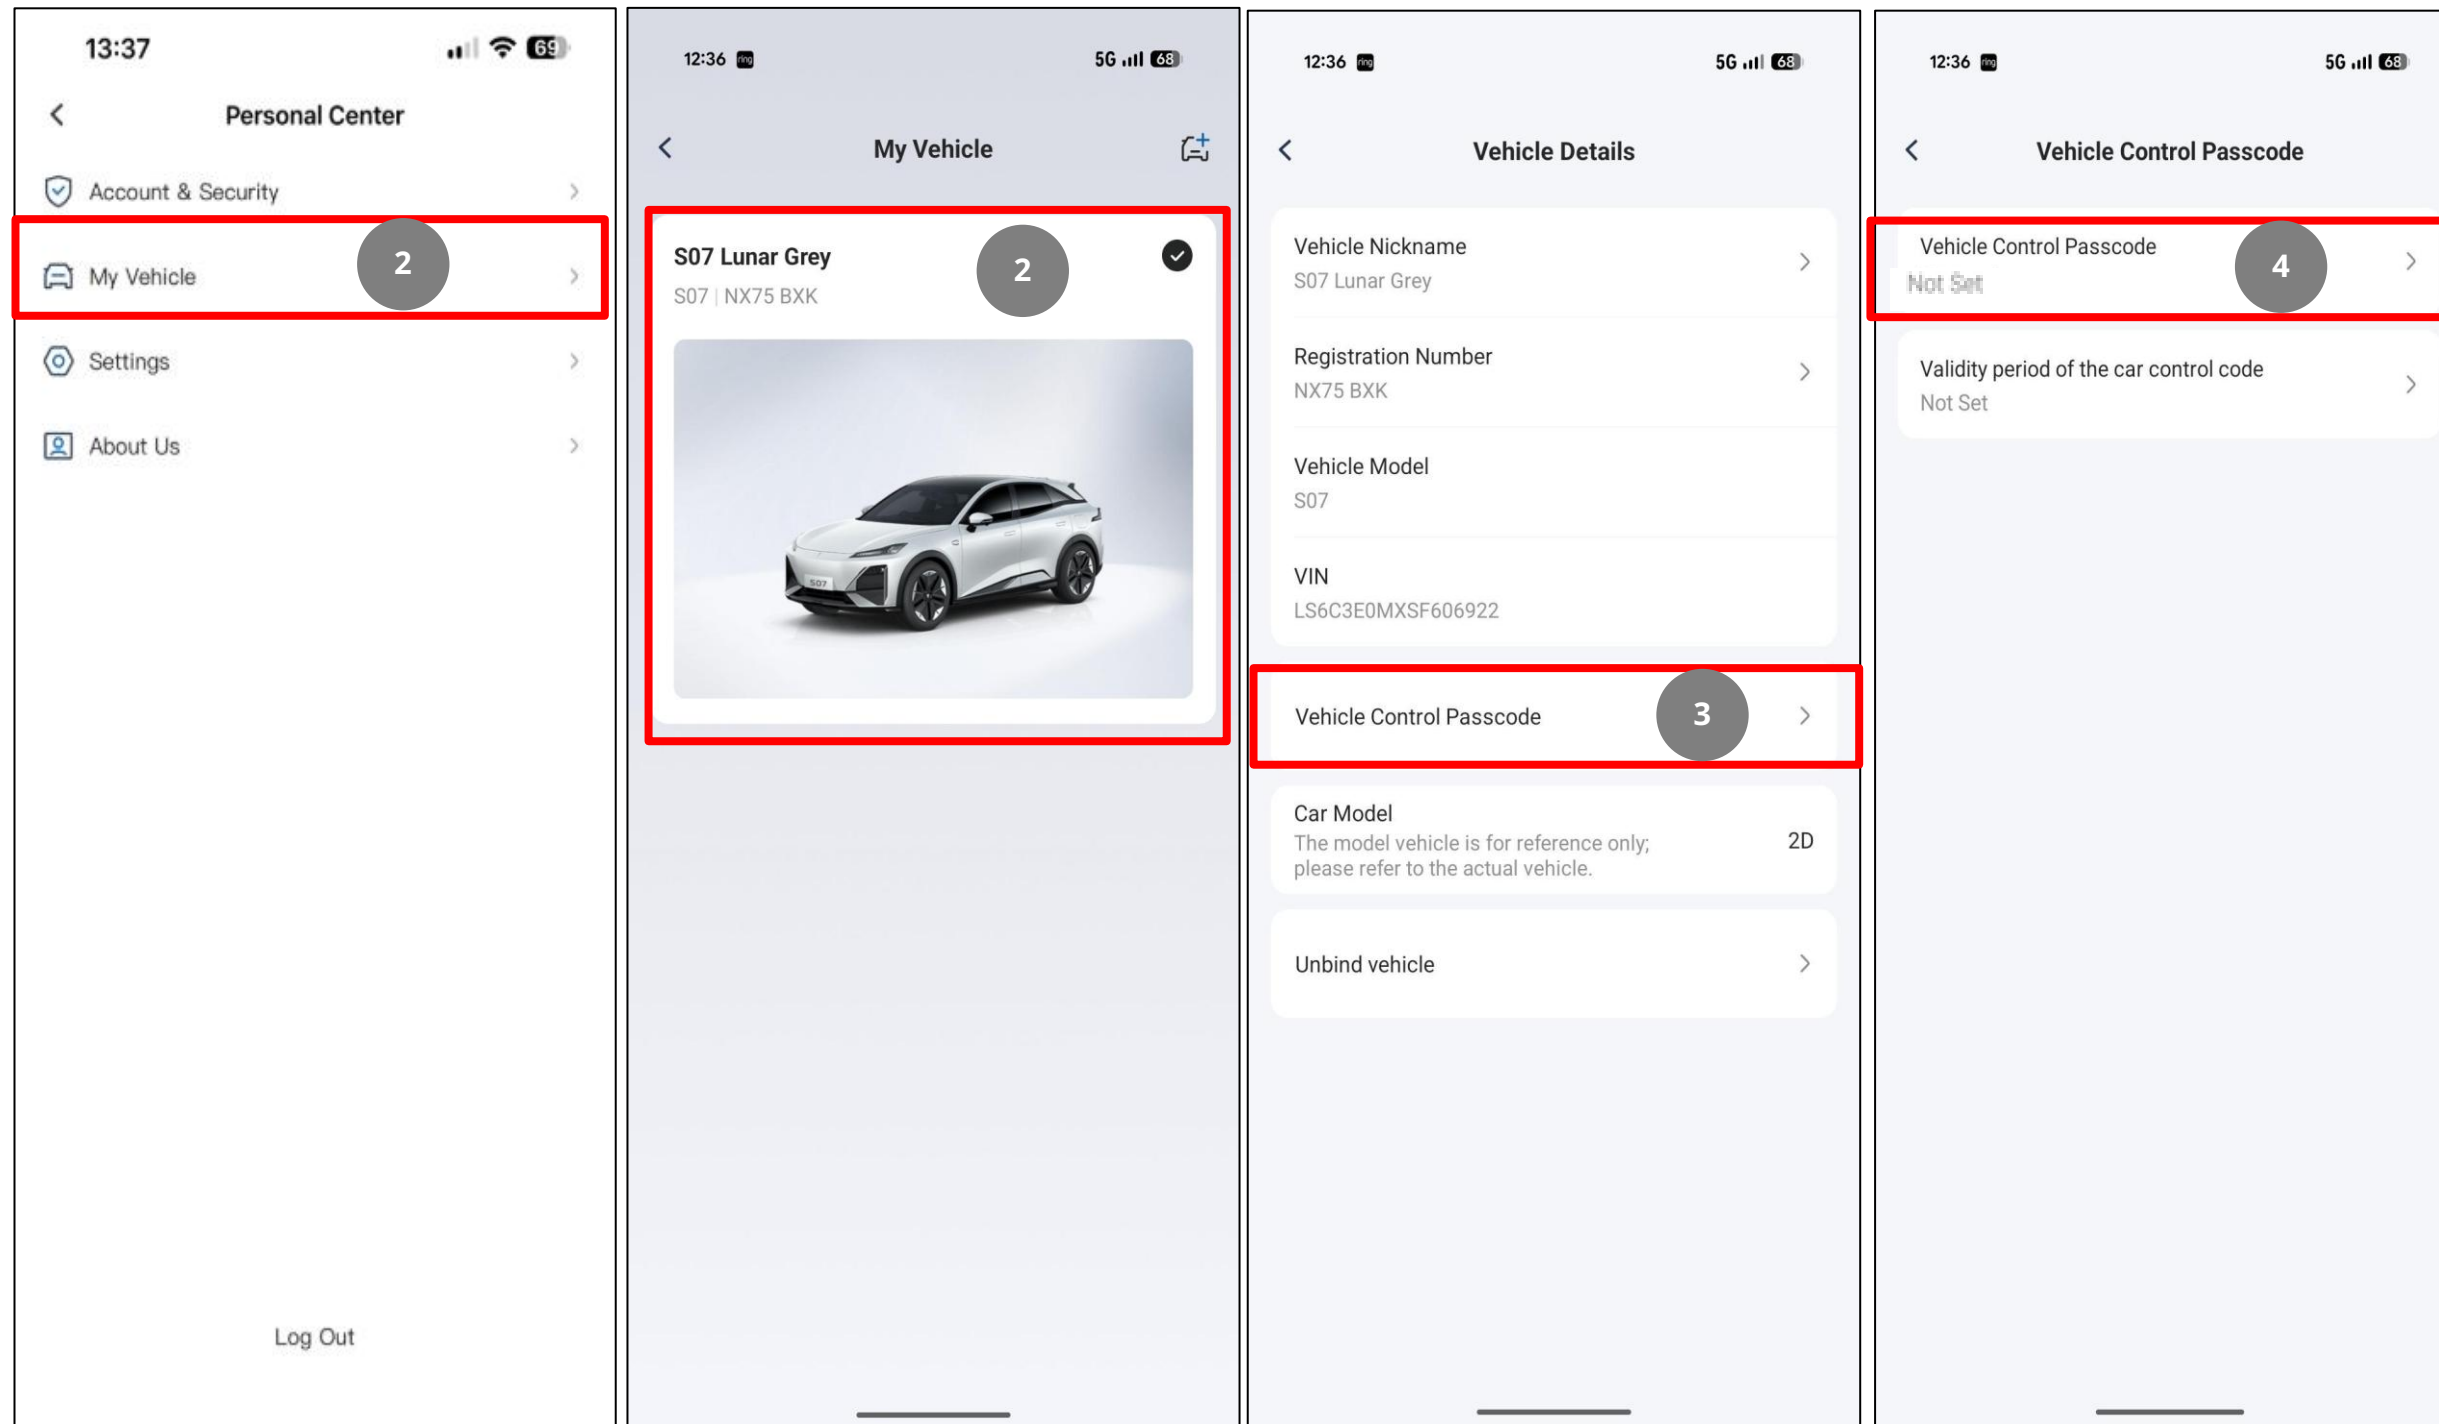

- 1 Click **Personal Center** on the Application homepage  Or click your **vehicle name** on the Application homepage 
- 2 Click **My Vehicle** and select the vehicle required
- 3 Click **Vehicle control passcode**
- 4 Click **Vehicle control passcode again**
 - Click **Send verification code** to get a One Time Passcode to your account email then click **Next**
 - **Input the One Time Passcode** received to email
 - **Create and input your chosen 6-digit passcode in both boxes** then click **complete**
- 5 Click **Validity Period**

Setup a validity period of your Passcode. Once set, the App will not require a Passcode when you send any command to the vehicle within the below selected timeframes :

 - 30 minutes
 - 8 Hours
 - 3 Days
 - 7 Days

7. VEHICLE CONTROL PASSCODE

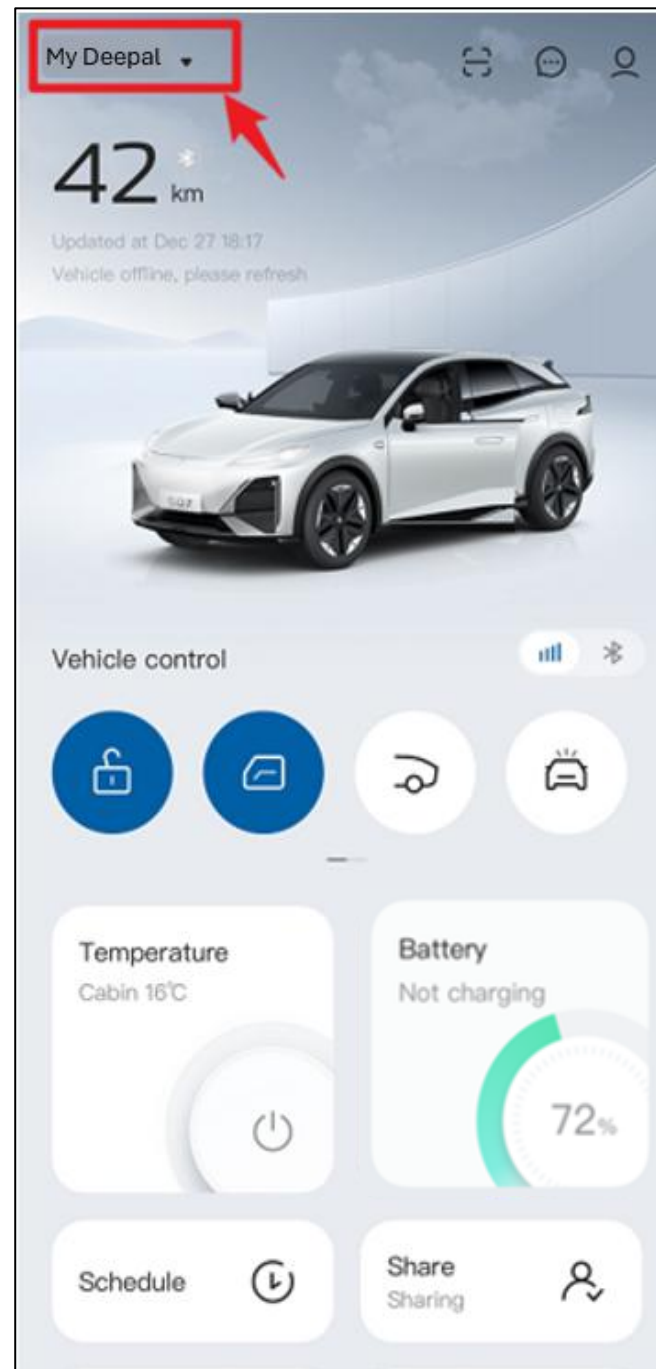

HOW TO CHANGE A VEHICLE CONTROL PASSCODE

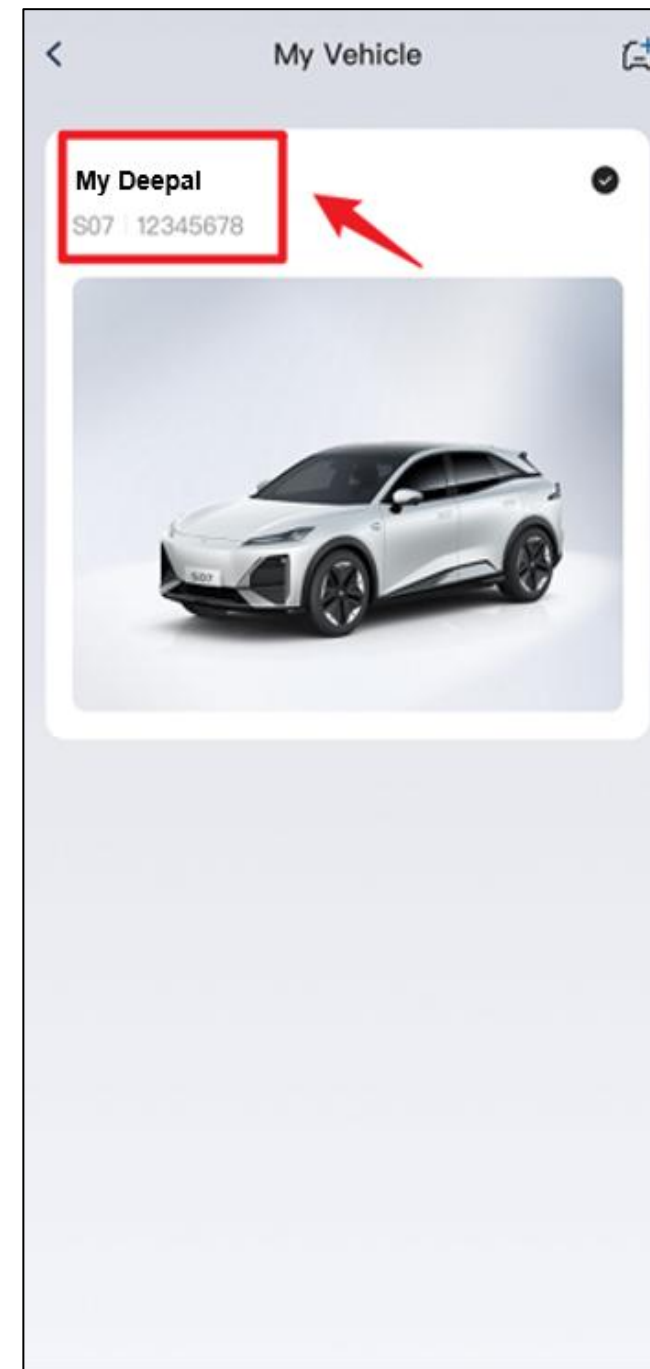

The vehicle control passcode can be changed by following the same steps used to create the initial code.

- 1 Click **Personal Center** on the Application homepage  Or click your **vehicle name** on the Application homepage 
- 2 Click **My Vehicle** and **select the vehicle**
- 3 Click **Vehicle control passcode**
- 4 Click **Vehicle control passcode again**
 - Click **Send verification code** to get a One Time Passcode to your account email then click **Next**
 - **Input the One Time Passcode** received to email
 - **input your new 6-digit passcode in both boxes** then click **complete**

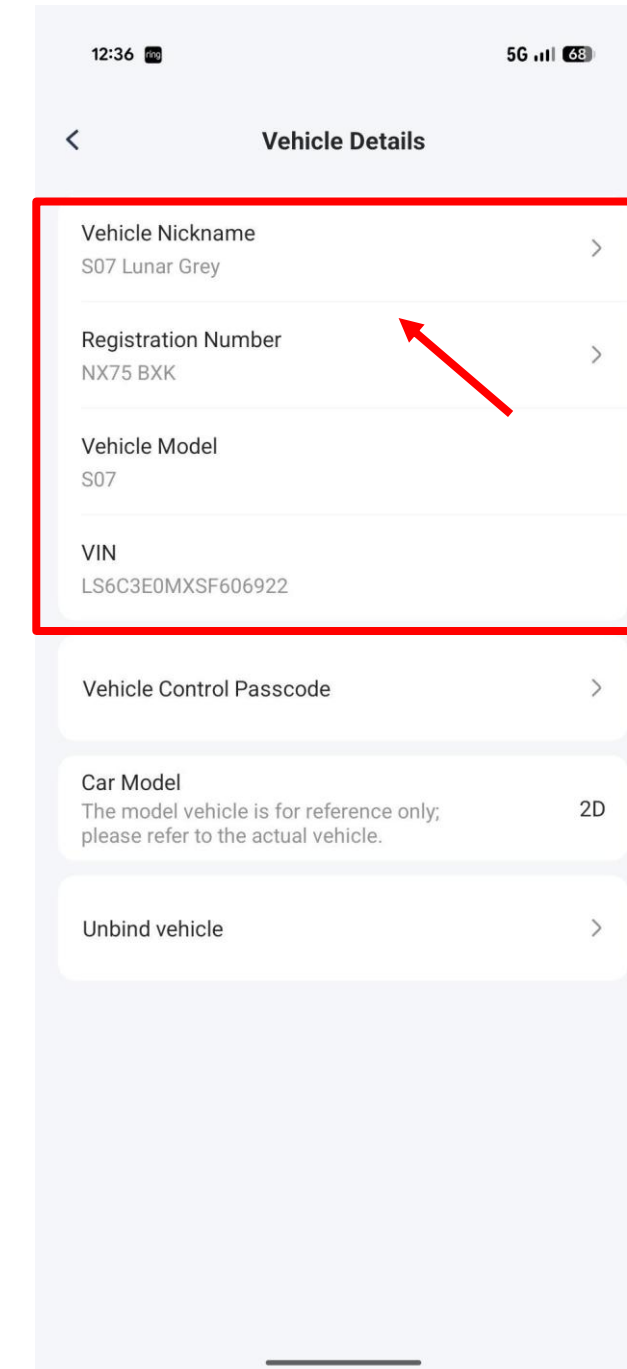

8. VEHICLE MANAGEMENT

1 Click **Vehicle name** to go to Vehicle management

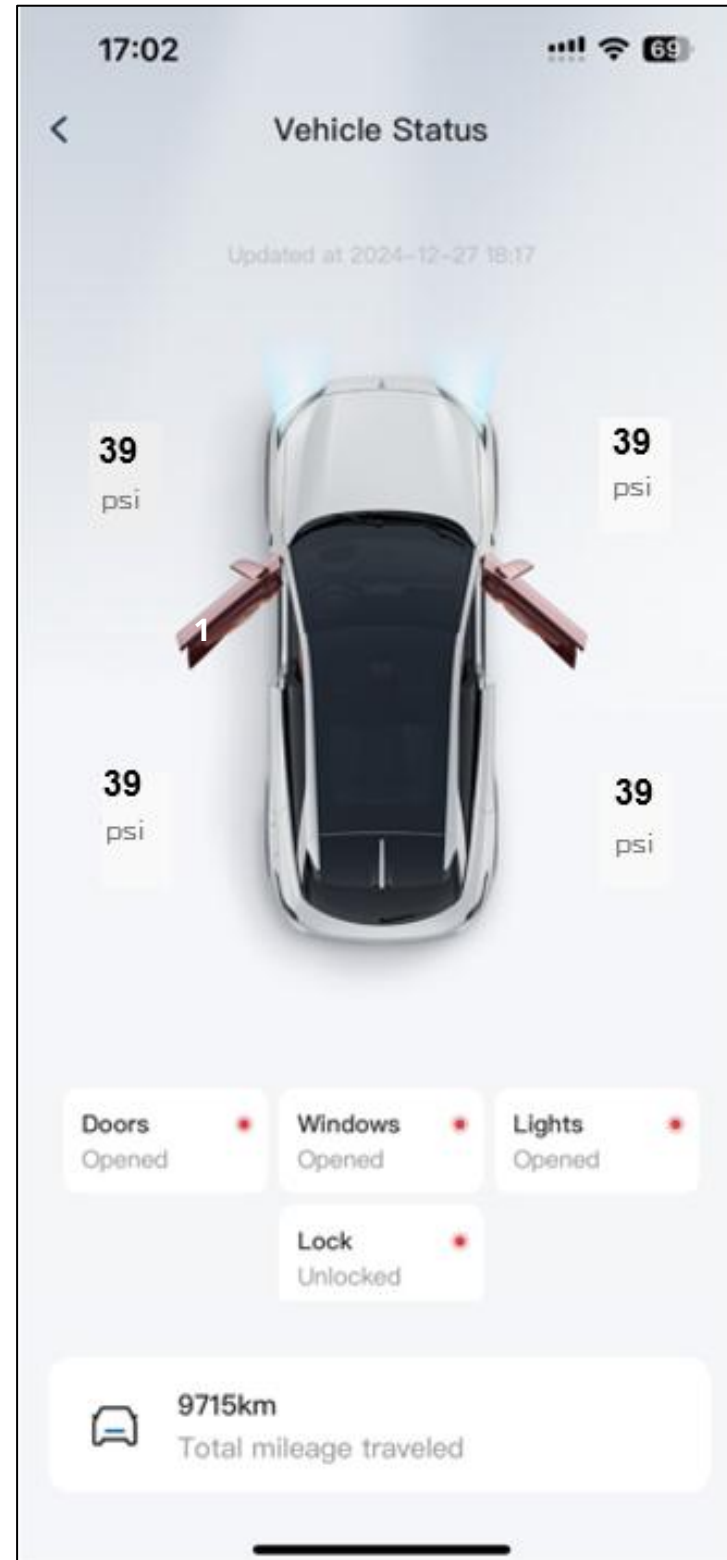

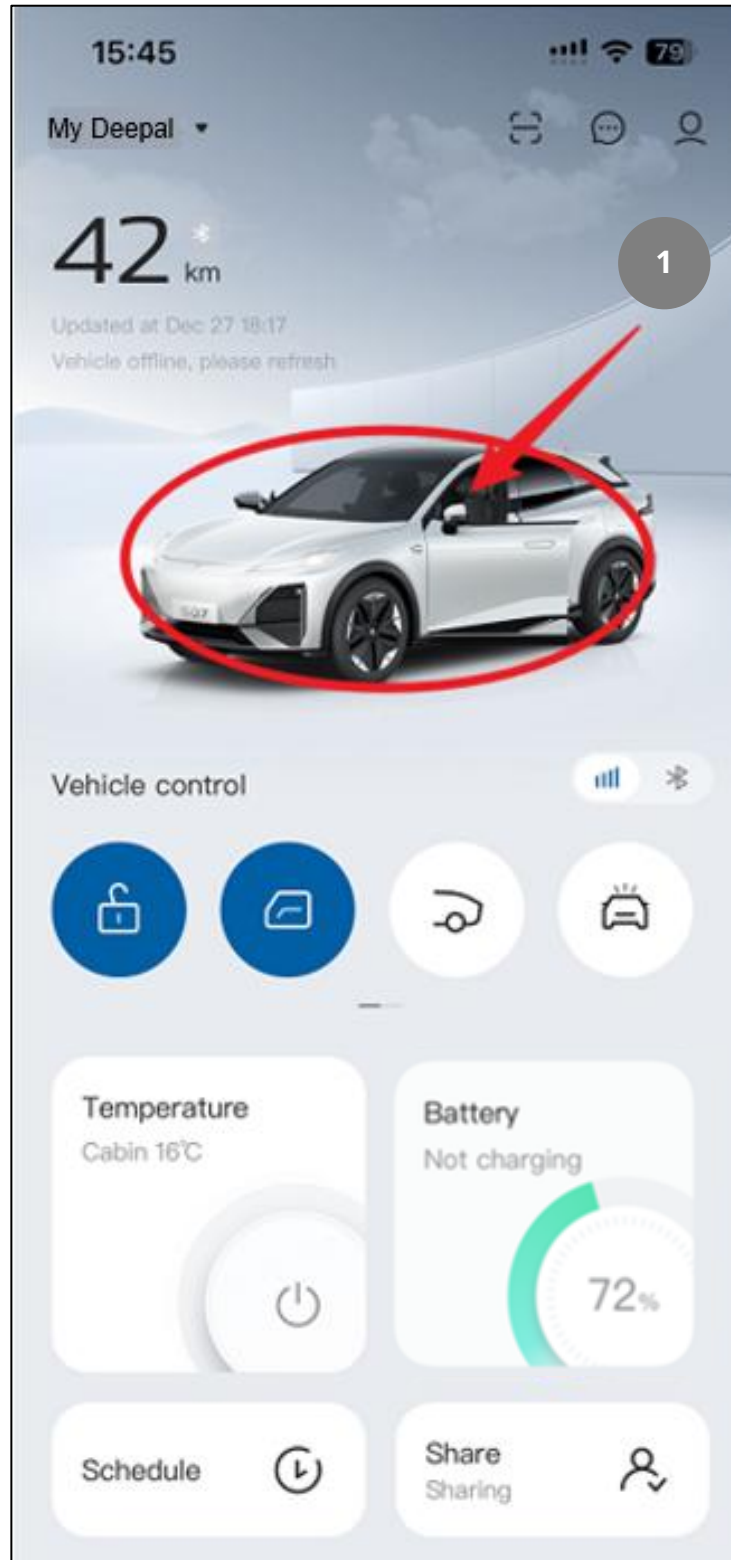

2 Click the vehicle to edit the information

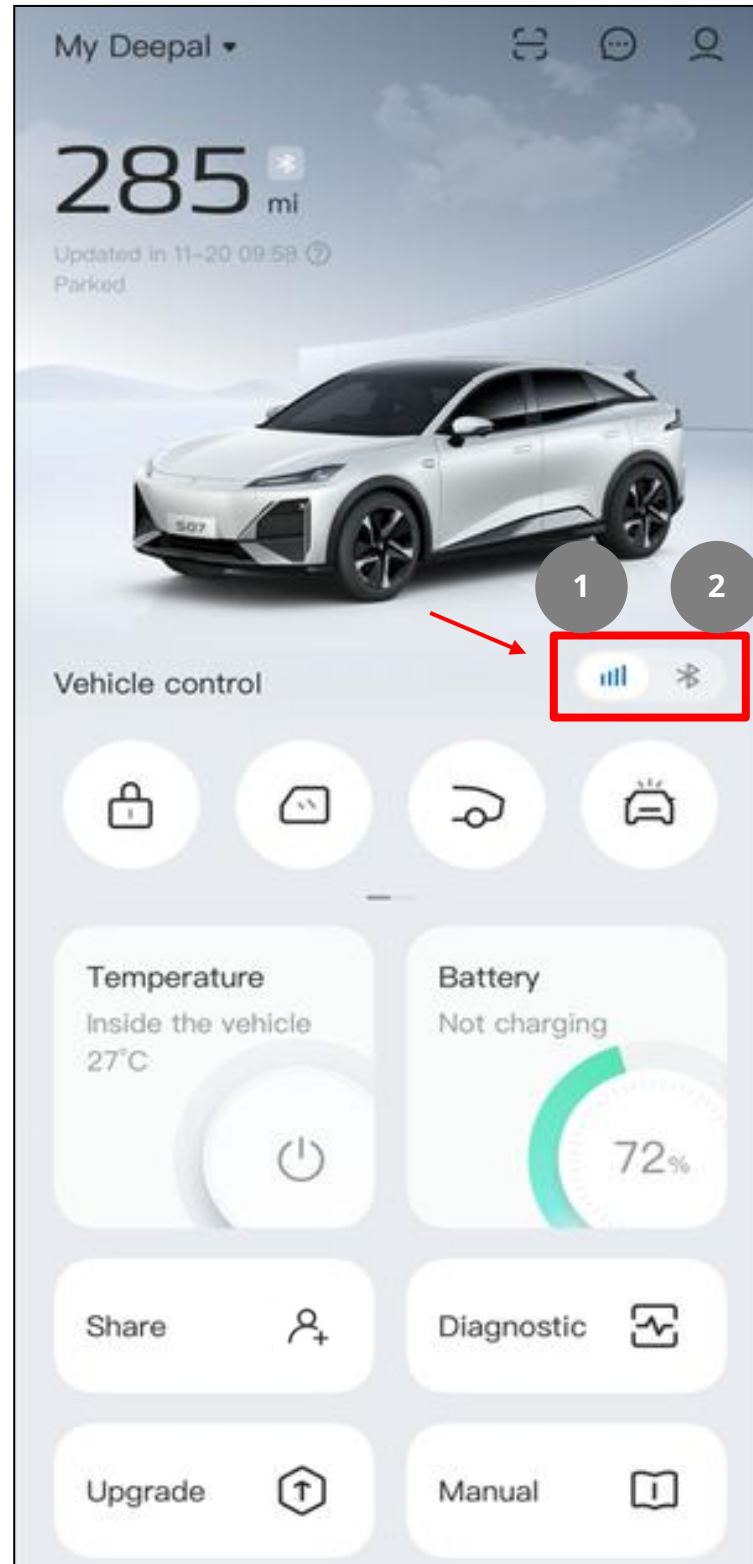

3 Edit vehicle information including the vehicle nickname and registration number.

9. VEHICLE STATUS

How to turn on/off steering wheel heating

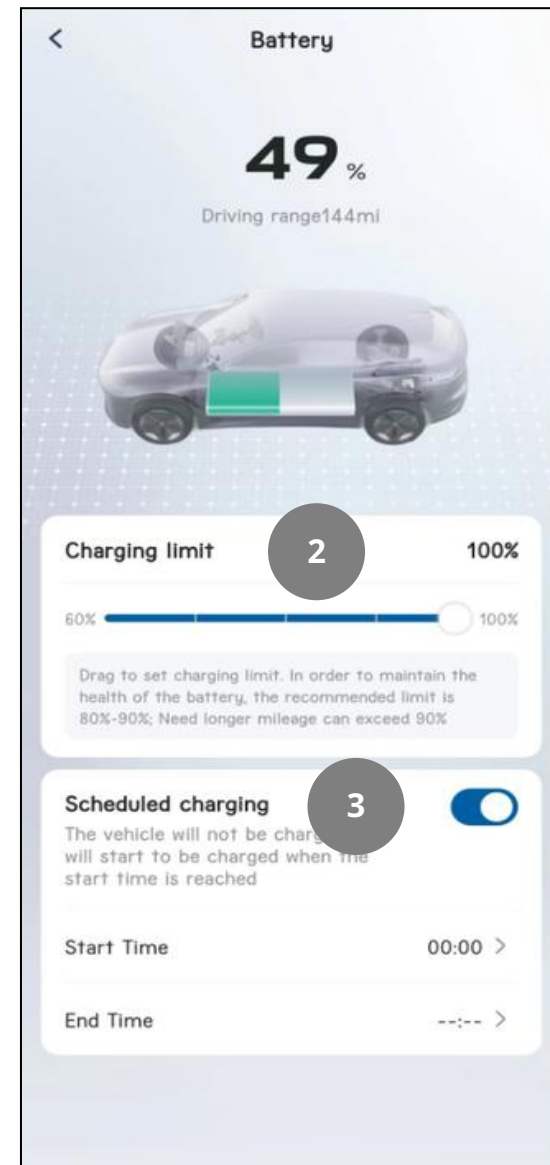

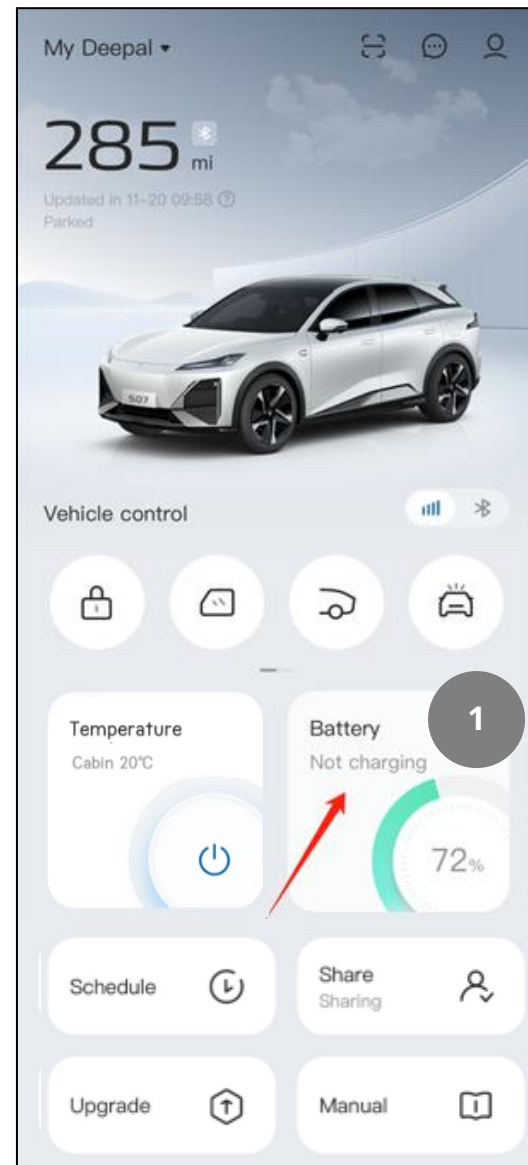

- 1 Select the **temperature** tab, click the **Seats** tab at the top of the App screen, then click the **steering wheel heating icon**

The icon colour will turn red when the function is on.

- 2 Click **Turn off** to turn off all enabled functions in this seats page

12. BATTERY MANAGEMENT

1 Shows the charging status and battery percentage on the application homepage

1. Charging status (charging or not charging)

2. Remaining battery*

*The estimated remaining battery percentage will depend on driving behaviour

2 Charging limit

To view and set a charging limit for your vehicle, select the **battery** tab on the Application homepage.

Adjust the % by moving the toggle to limit or increase the maximum battery charging.

1. Recommended Value for daily use is 80%-90%

2. Recommended Value for longer mileage > 90%

3 Scheduled charging

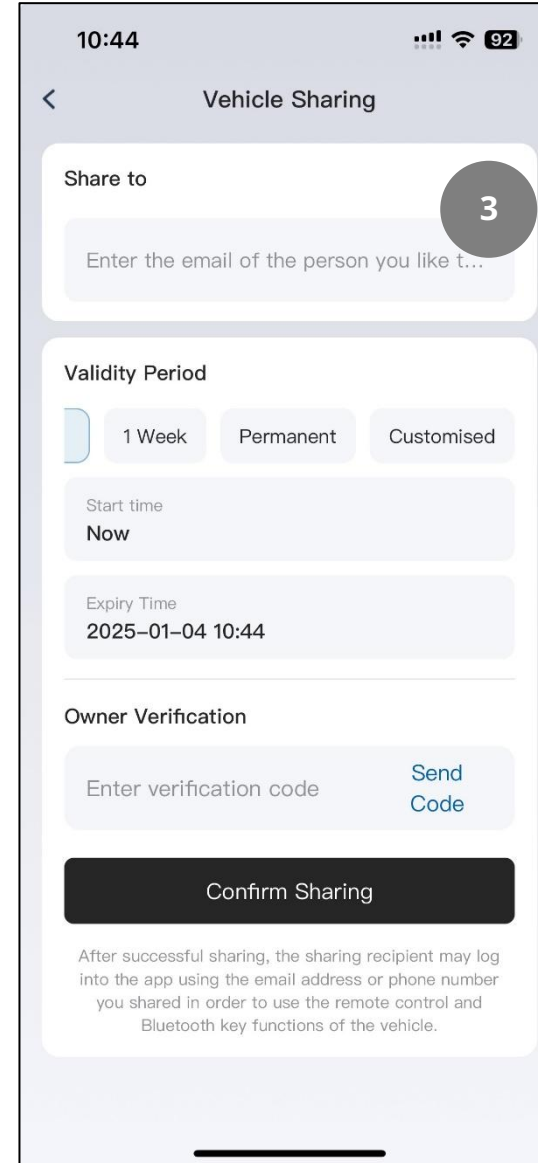

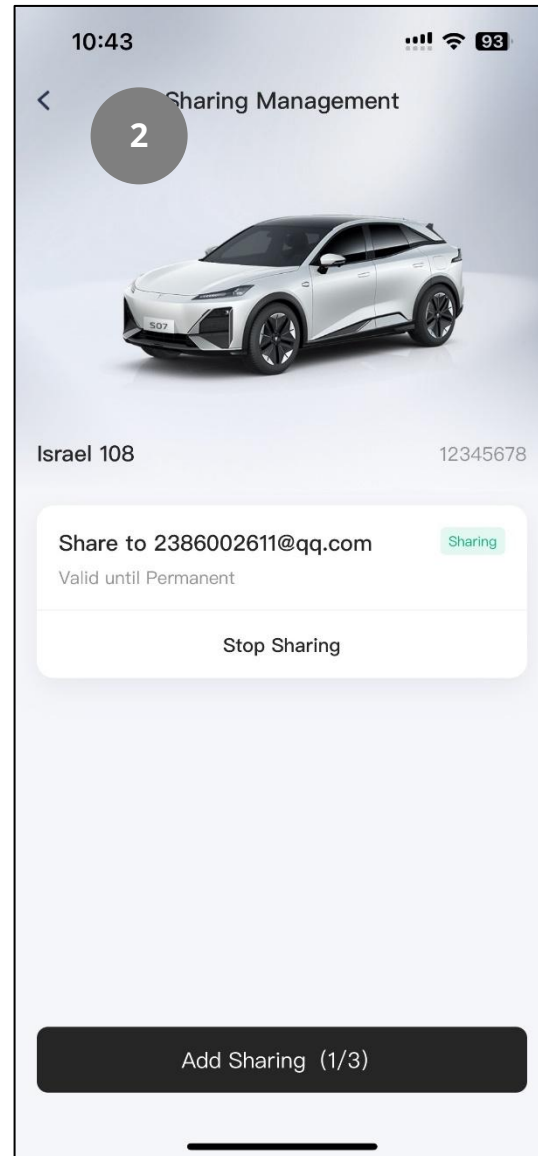

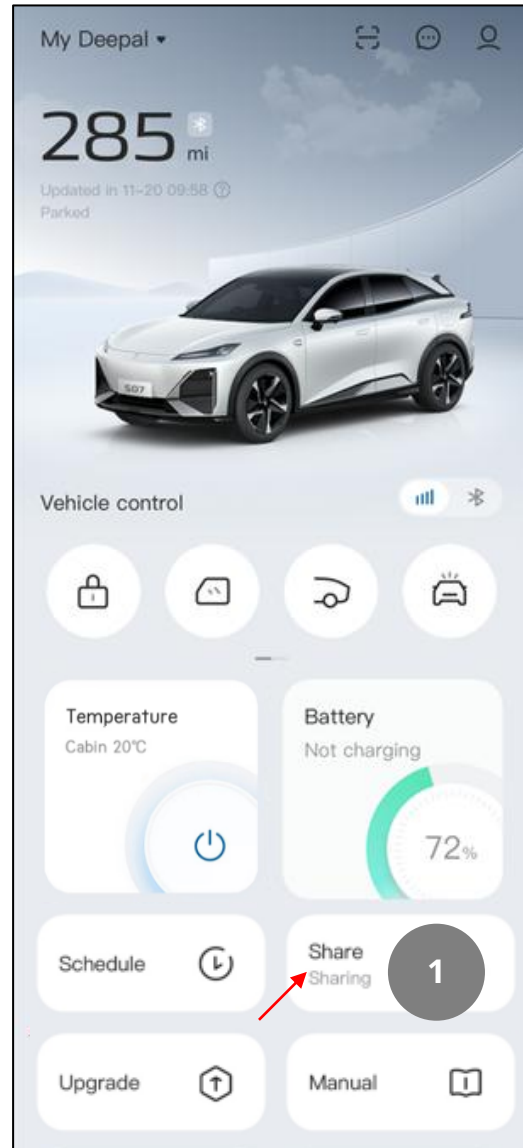

Use this feature to setup a specific period for charging.

If the function is turned on, then the vehicle will not start charging until the start time has been reached.

1. Start time : set the start charging time

2. End time : set the end charging time. If the end charging time is not defined, then the vehicle will stop charging when the battery percentage limit has been reached.

13. VEHICLE SHARING

*Vehicle sharing is not available on the Deepal S05.

1 Click **Share** on the application homepage to go to Sharing management

2 **Sharing management**

- This will show all current vehicle access that you are sharing with other individuals
- Click **stop sharing** to stop sharing with your chosen individuals
- Click **Add share** to share vehicle access with a new individual
- You can share vehicle access with a maximum of 3 individuals

3 **Vehicle Sharing**

Share vehicle access with a new individual

1. Input the email address of the individual who you want to share vehicle access with

2. Select the time period (validity period) to confirm how long you wish to share access with this individual

- 1 Day : share for 1 day
- 1 Week : share for 1 week
- Permanent : share permanently
- Customized : Define your own start-stop sharing period

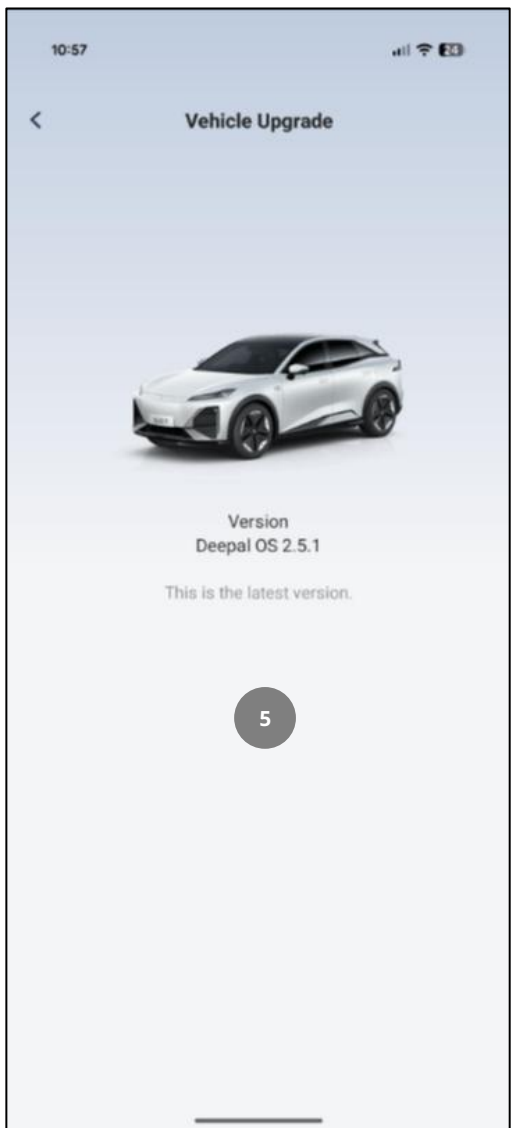

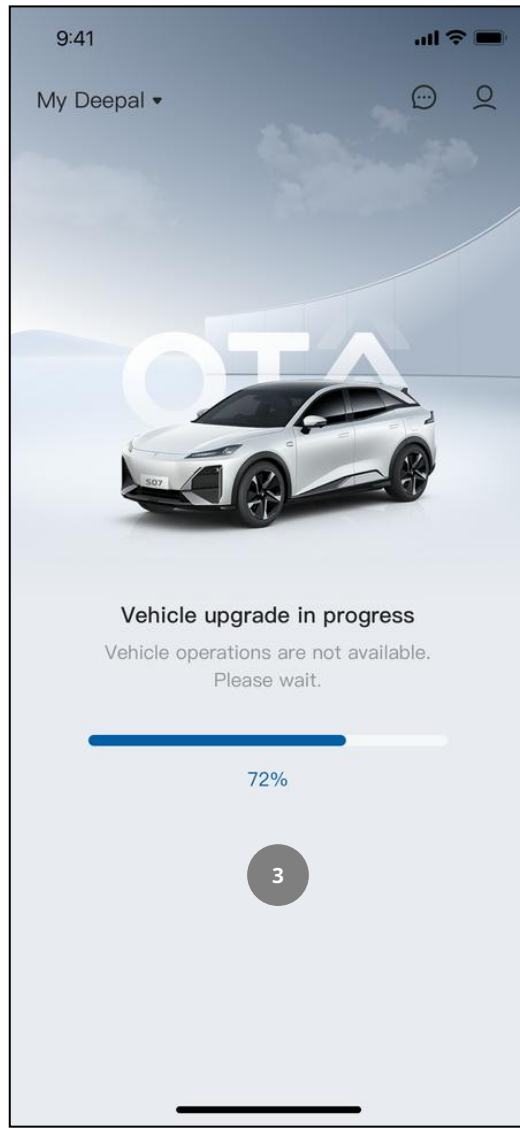

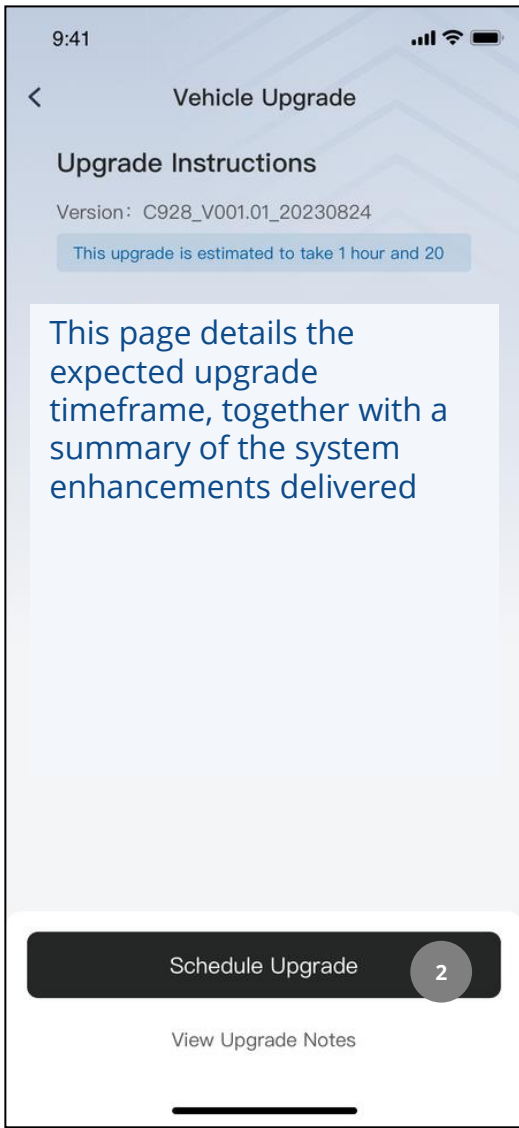

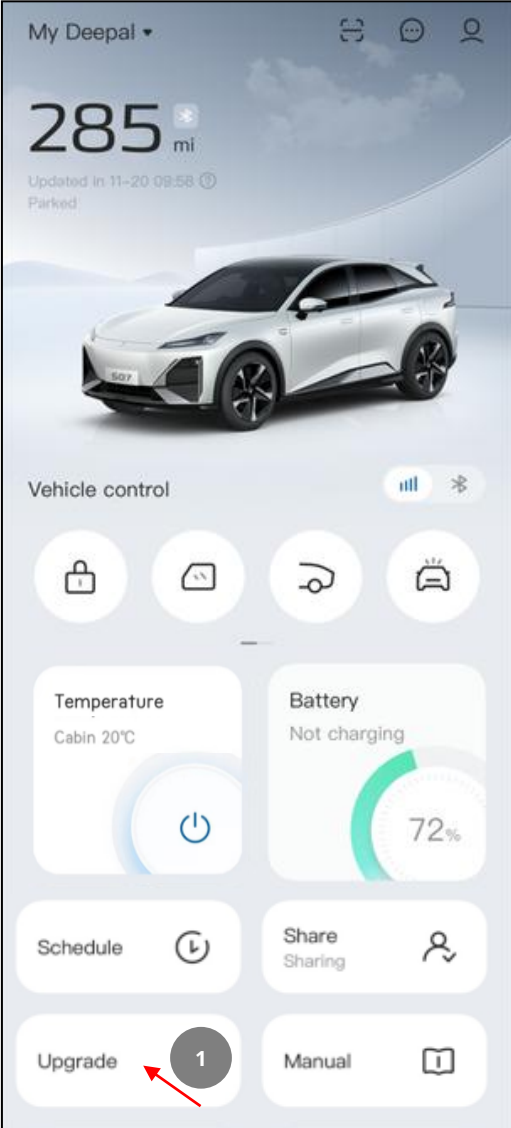

3. Click **Send code** to send a One Time Passcode to your email

4. Enter the One Time Passcode and click **Confirm sharing**

5. After successful sharing, the individuals who you have shared access with will receive a confirmation email. They can then log into their MyChangan App with their email to operate the car.

Please note that the individual must have created a MyChangan App account first.

14. VEHICLE SOFTWARE UPGRADE

1 Click **Upgrade** on the application homepage to go to the Vehicle upgrade page

2 **Vehicle upgrade**
Before upgrading the vehicle's software, the user must have finished downloading the whole Over The Air package for the vehicle (please see the vehicle user manual for guidance).

Show upgrade instructions and detail:

- Software version
- Estimated upgrade time
- Release notes

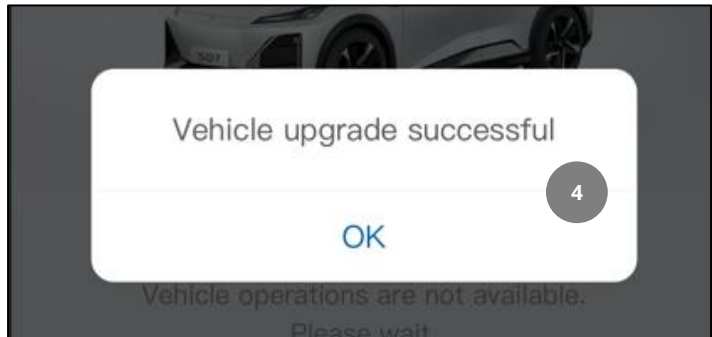

or click **View Upgrade Notes**

Click **Schedule Upgrade** to setup the upgrade time

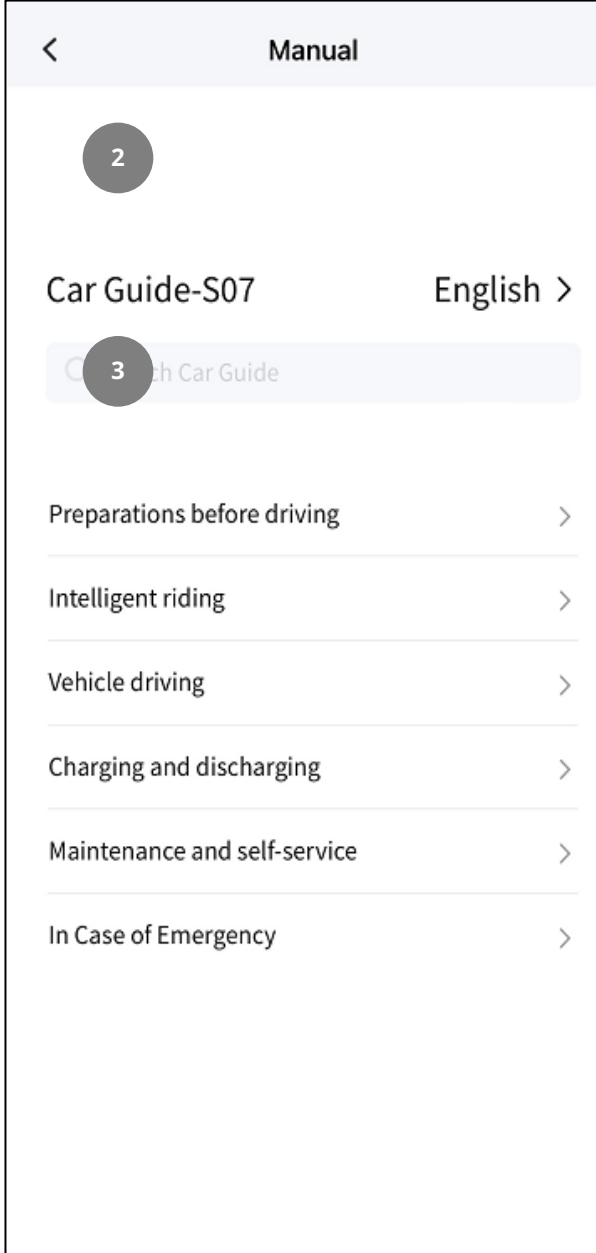

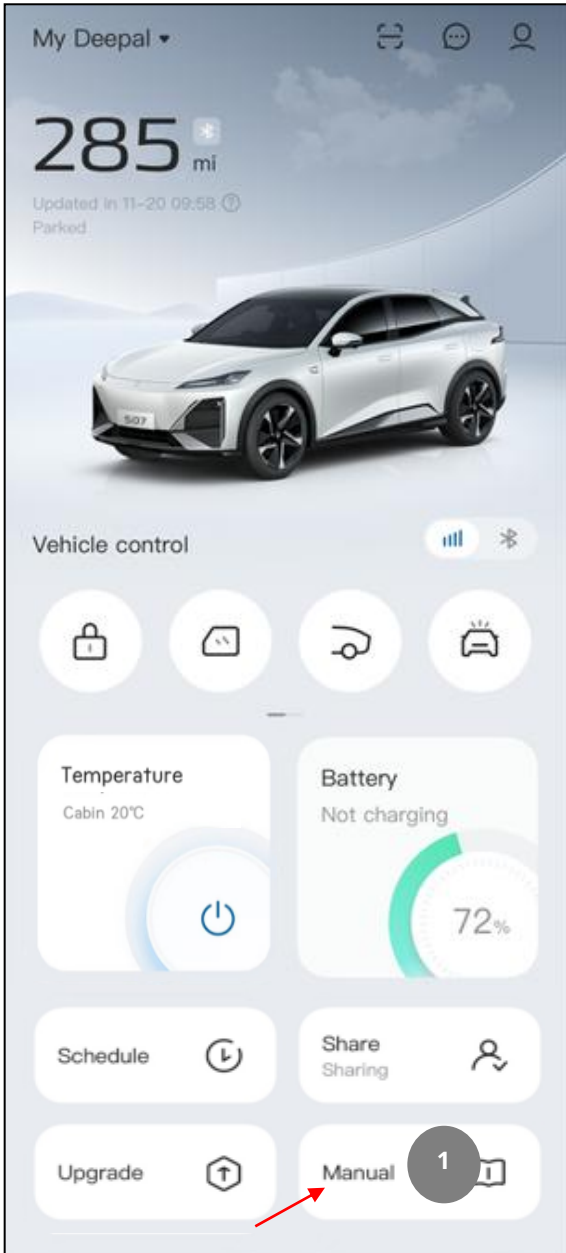

3 **Vehicle upgrade in progress**
When the scheduled start time has been reached, the upgrade will begin. The user can check upgrade progress in the App

4 The app will show the upgrade results when the upgrade is finished

5 If the vehicle is on the latest software the App will advise 'This is the latest software' and will confirm the software version

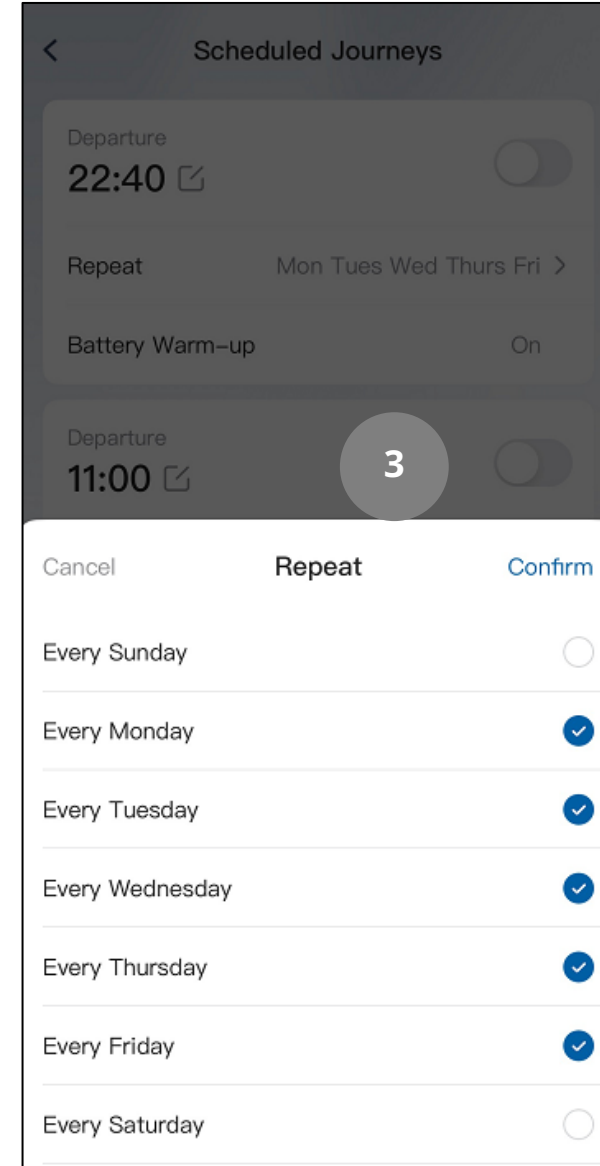

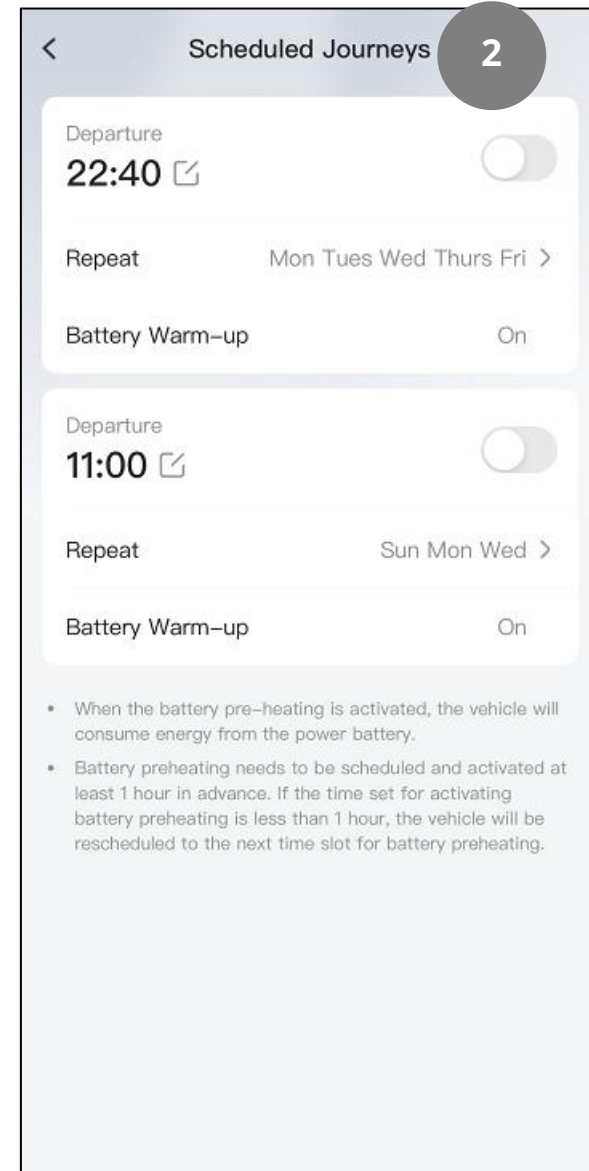

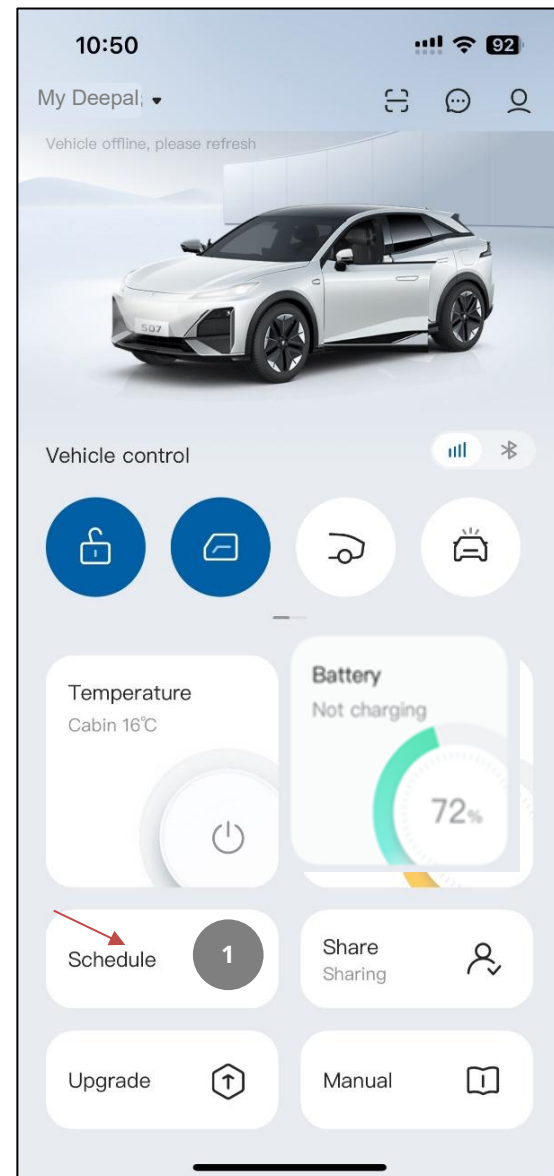

15. USER MANUAL

- 1 Click the **Manual** tab on the Application homepage to go to the Owners manual page
- 2 **User manual**
Show user manual separated by categories
 - o Preparations before driving
 - o Intelligent riding
 - o Vehicle driving
 - o Charging and discharging
 - o Maintenance and self-service
 - o In case of emergency
 - o Etc.
- 3 **Search**
You can use the search bar to search for content within the manual by using keywords

16. SCHEDULE A TRIP

BATTERY PRE-HEATING

1 Click **Schedule** on the application home page to go to the **Schedule Trip** page

2 **Scheduled Trip**
This page shows two battery warm-up schedules that you can set ready for your departure and return times

The battery will be warmed up before your departure time

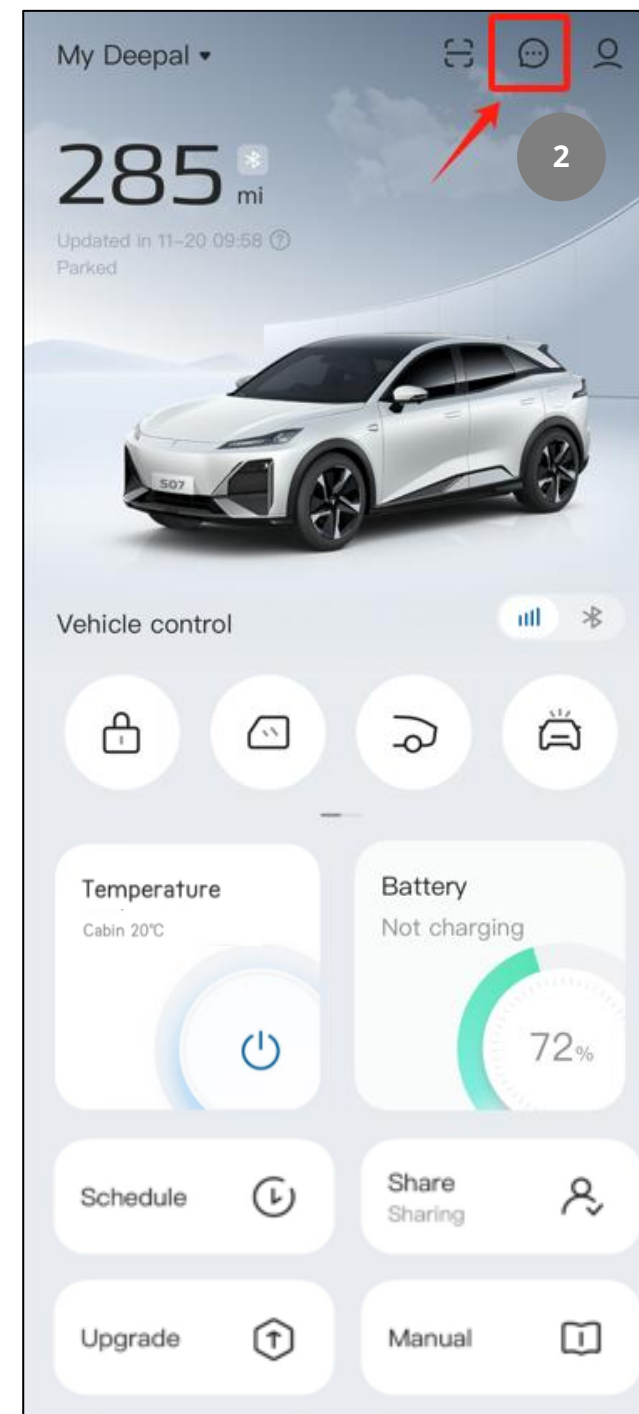

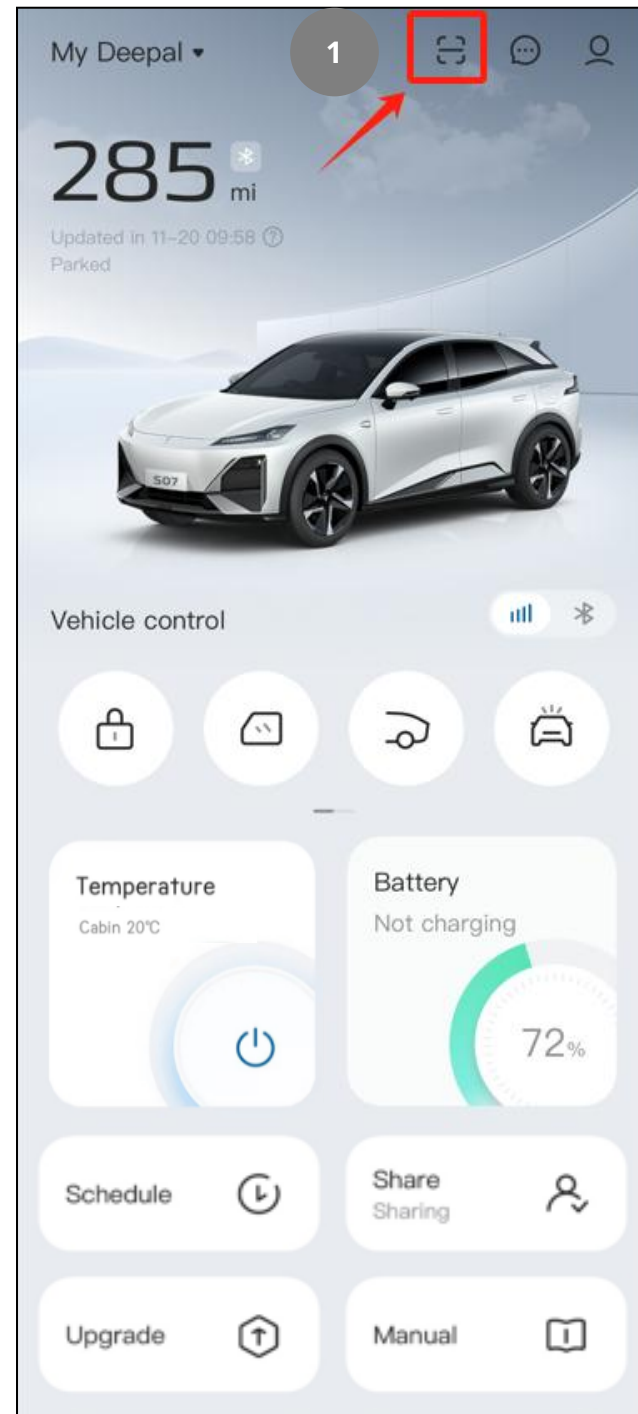

3 **Repeat**
If desired, you can set a repeating schedule for your chosen days

Users can set the departure time, set the cycle, and control the switch to setup a schedule that meets their own habits.

* When the battery warm-up is activated , the vehicle will consume energy from the power battery.

**Battery pre-heating needs to be scheduled and activated at least 1 hour in advance . If the time set for activating battery pre-heating is less than 1 hour, the vehicle will be rescheduled to the next time slot for battery pre-heating.

17. SCAN AND MESSAGE CENTER

1

Scan to login

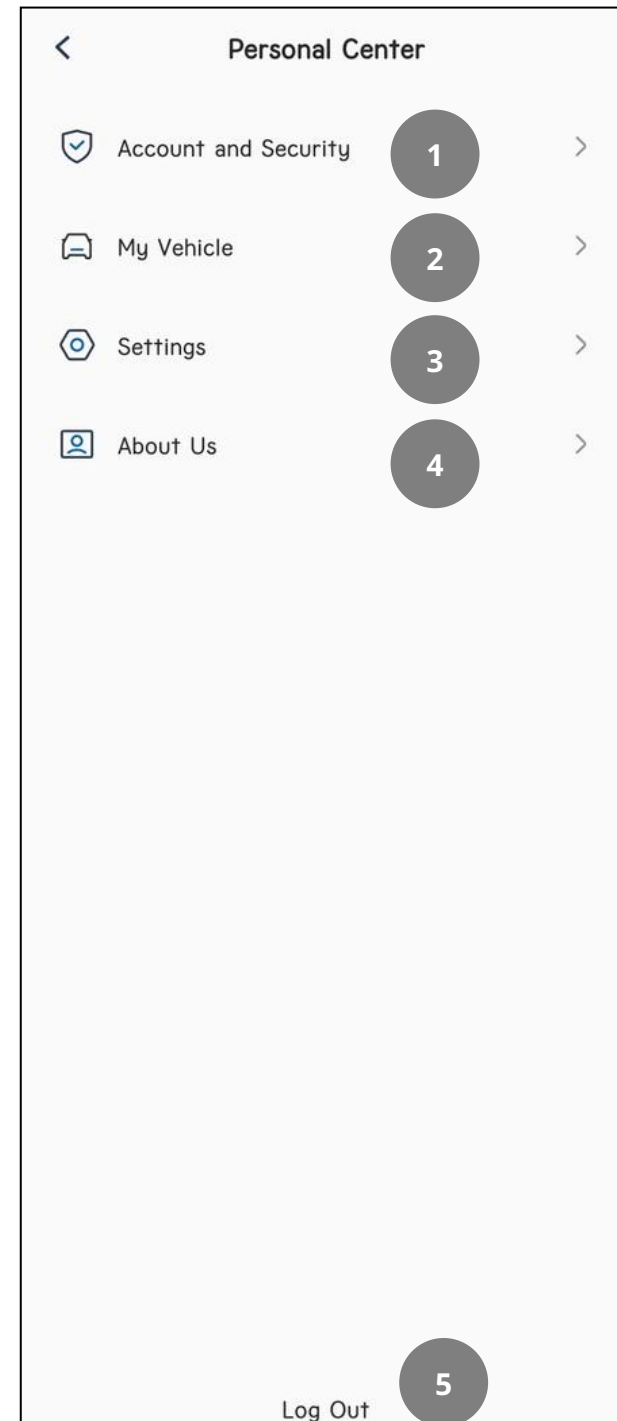

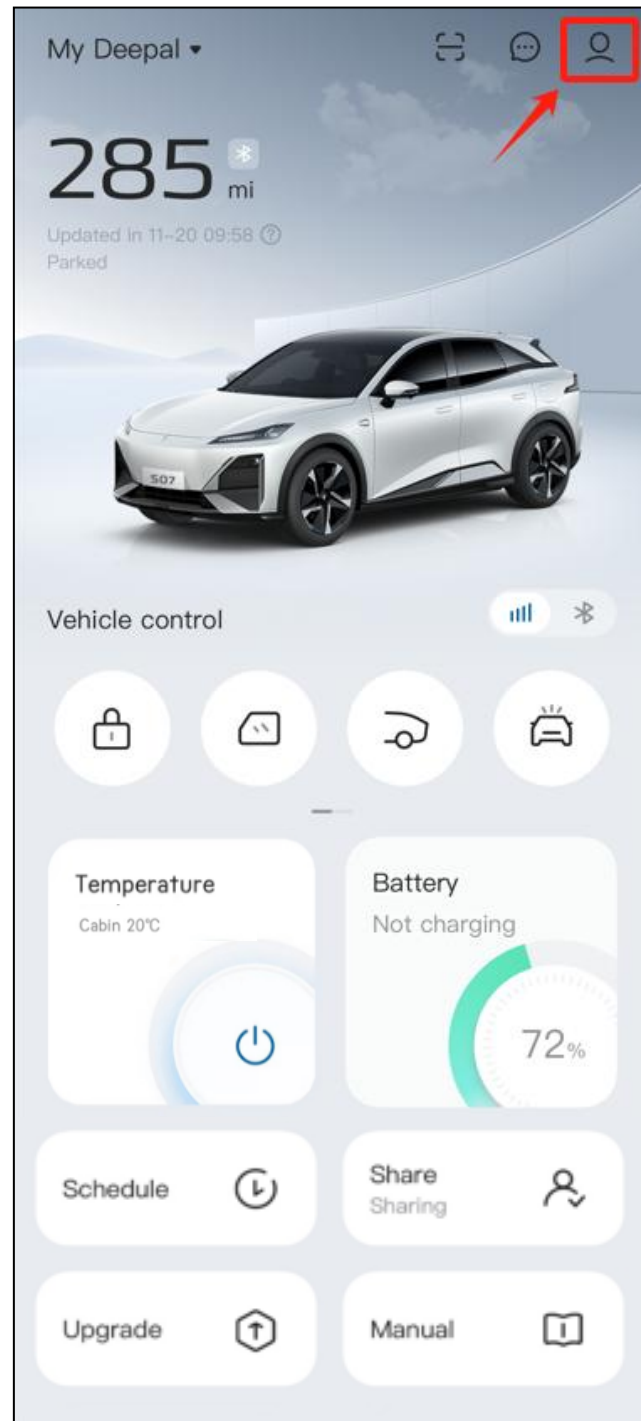

Scan QR Code on vehicle infotainment screen for login and vehicle owner verification

2

Message center

Messages from Changan company

18. PERSONAL CENTER

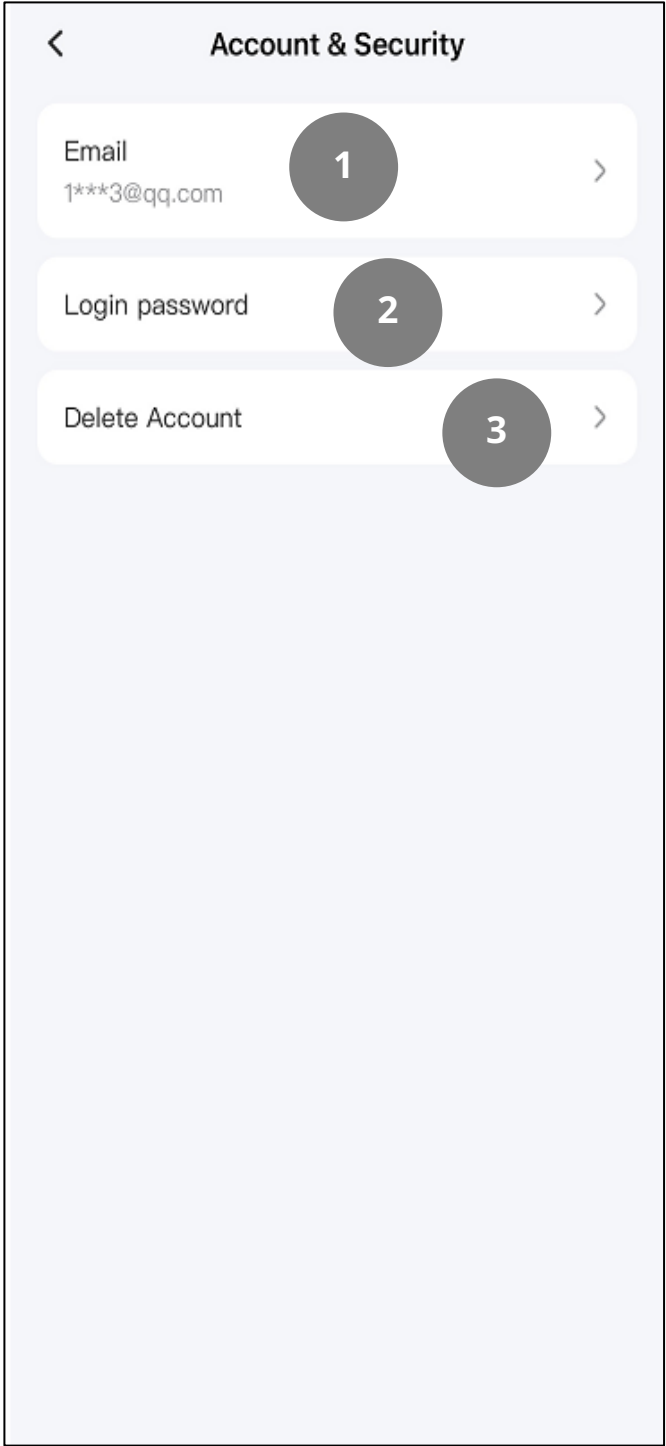

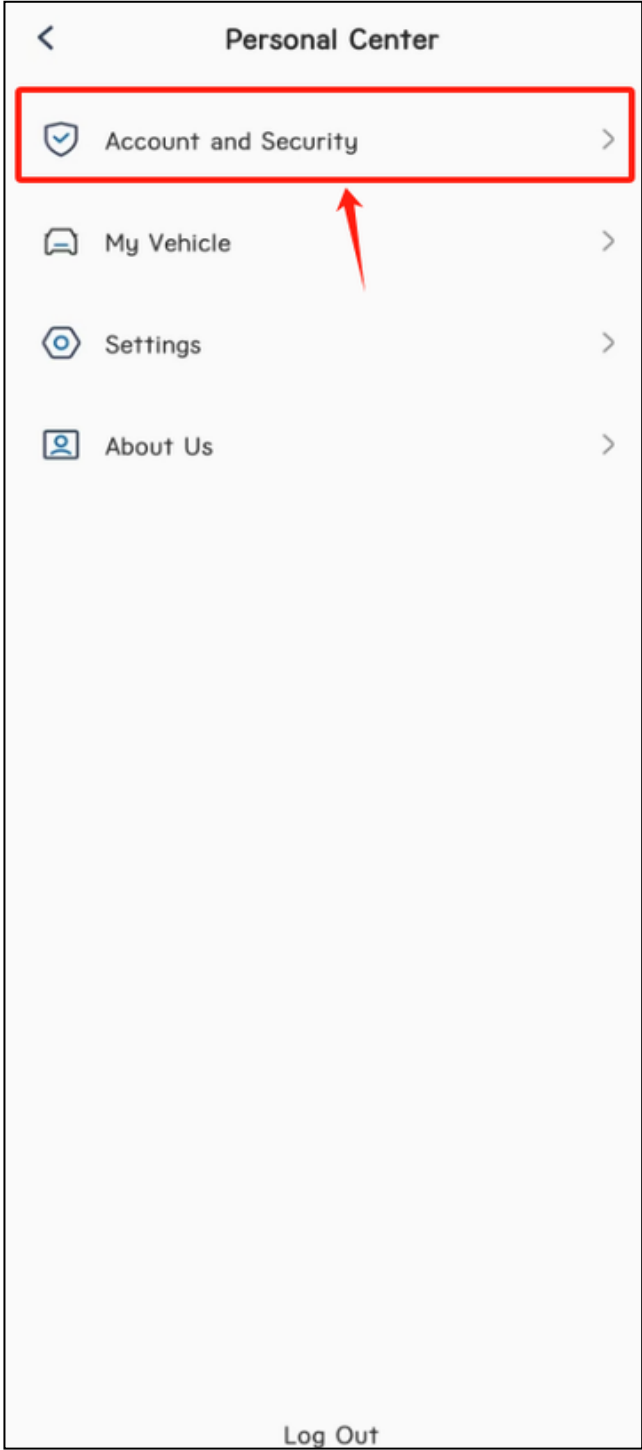

- 1 Account and Security**
 - Change account Email
 - Set and change login password
 - Delete your account
- 2 My Vehicle**
 - Go to Vehicle management page
 - Here you can view vehicle details and set your vehicle passcode
- 3 Settings**
 - Set Application language
 - Setup distance unit (km/miles)
 - Setup tyre pressure unit
 - Setup Permission for the App (Bluetooth, location and camera)
- 4 About us**
 - Contact us
 - User agreement
 - Privacy Policy
 - Application version
- 5 Log out**

Logout Application on this device

18. PERSONAL CENTER

ACCOUNT AND SECURITY

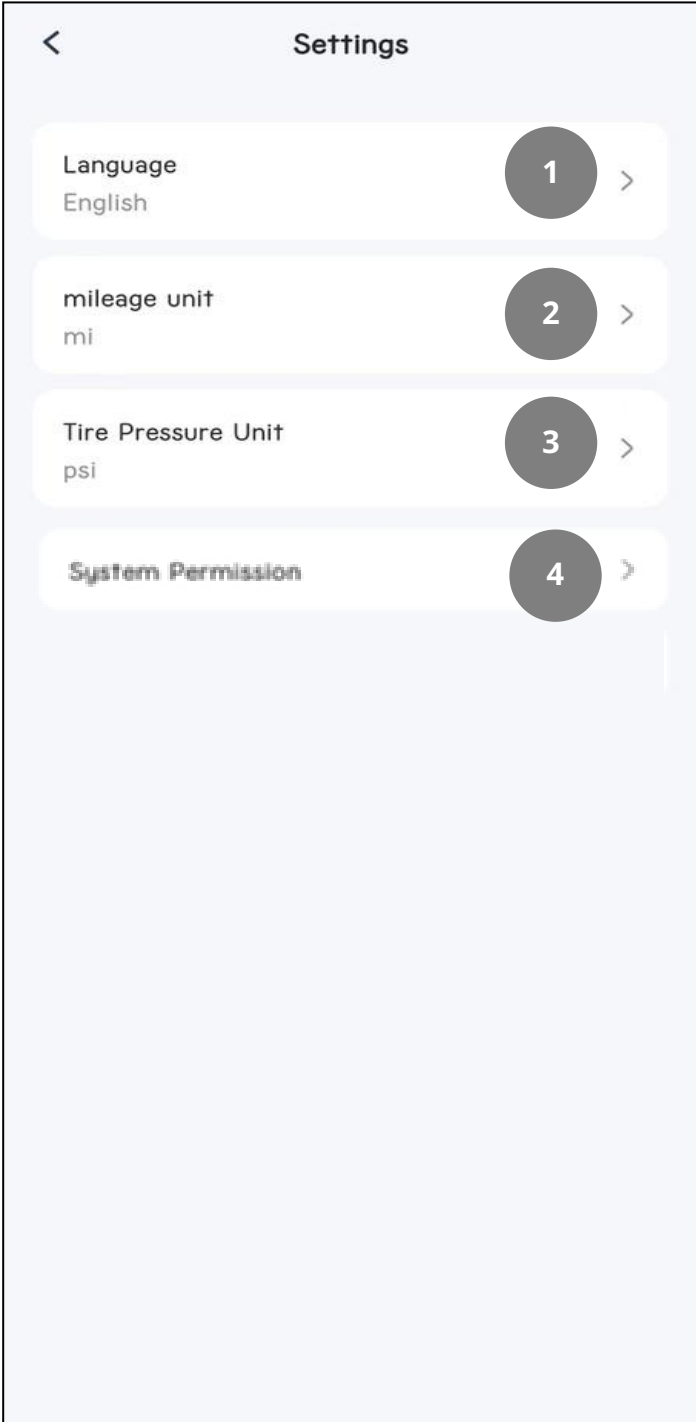

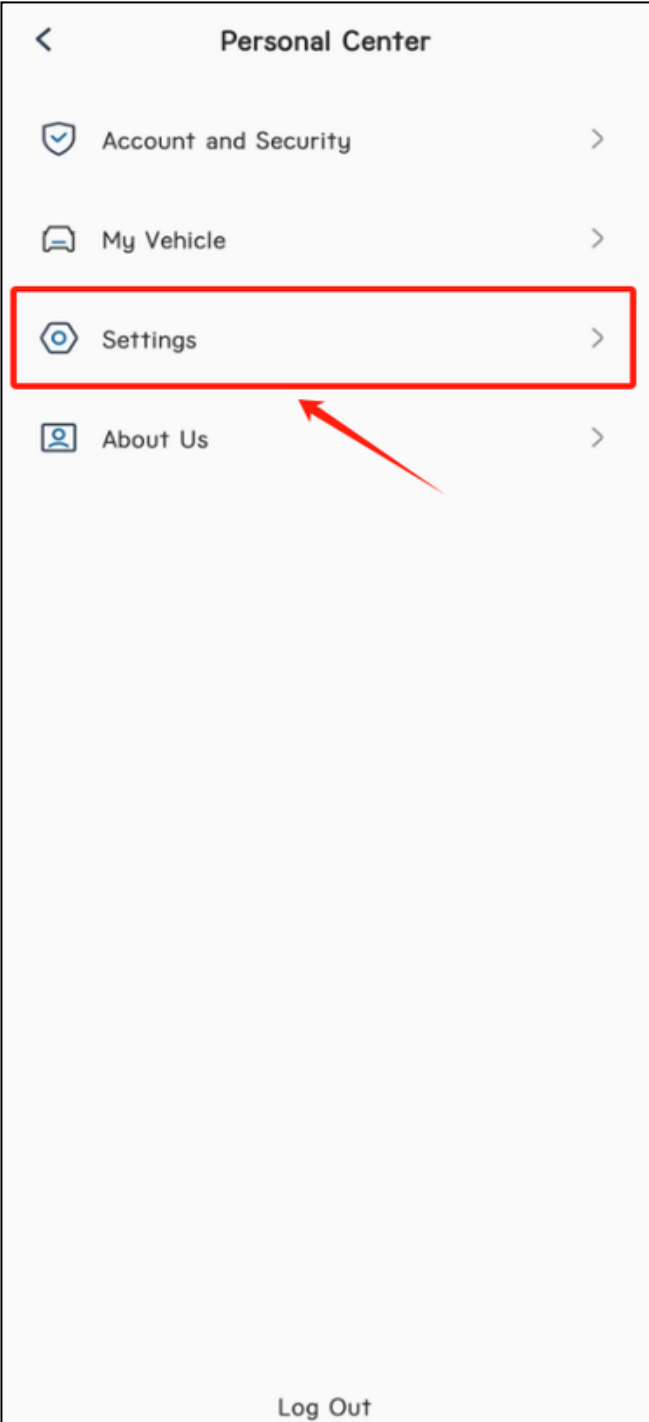

Account and Security

- 1 Email**
 - Change account Email
- 2 Login Password**
 - Edit password for account login
- 3 Account Cancellation**
 - Delete current account
 - * Please unbind all vehicles under the account before deleting
 - ** you can create a new account with a deleted account at anytime.

18. PERSONAL CENTER

SETTINGS

Settings

- 1 Language**
 - you can change application languages in the App
